WASHINGTON.

CAPITAL, OLYMPIA.

Population of State, 518,103.
(U. S. Census of 1900.)
Number of Physicians, 1,012.

The State of Washington occupies the extreme northwestern portion of the United States. The Straits of Juan de Fuca, Vancouver Island and the British Columbian possessions mark the northern border, the State of Idaho the eastern, the State of Oregon lying on the south. The Pacific ocean limits the land's end to the west. The state's area comprises an extent of, approximately, 70,000 square miles, 1,156 square miles of this being tide-water—Puget Sound. The state is divided into two most distinctive sections by the Cascade range of mountains, each section with a climate differing from the other and generally designated as "wet" and "dry" climates. Western Washington, comprising the Sound country and that section west of the Cascades, includes about one-third the total area of the state, is heavily timbered, with a mild and equable climate, small areas of natural prairie land, and that generally of a gravelly and non-productive nature.

Eastern Washington is for the most part barren of trees—a rolling prairie, rich in soil, but for a large part subject to the necessity of irrigation for agricultural purposes. The climate of this section has more of the extremes of heat and cold than the western portion, and yet by no means to that extent which characterizes states of the same altitude and further east.

The climate of Washington is much more equable than that of other states situated in corresponding latitudes. The daily and seasonal range of temperature which so greatly affects climate everywhere is not great in this state. The mean temperature for the month of January, which is usually the coldest month in the year, is 35.2 degrees. This is the average of the mean January temperature for ten years, taken at stations well distributed throughout the entire state. A similar average for July, usually the hottest month, gives 64.6 degrees. These averages cannot be far from the true or normal temperature for January and July. The difference between these is 29.4 degrees, the seasonal range. A comparison of the difference between the winter and summer temperature in Idaho, Montana, North Dakota, Wisconsin or Michigan, all of which lie in the same latitude as Washington, with the seasonal change in this state, will show that it is comparatively low. To this fact may be attributed the entire absence of sudden changes or violent disturbances of the atmosphere within the state. The average of these two extremes, the temperature of January and July, gives a little less than 50 degrees for the mean annual temperature of the state. This is, however, about one degree above the true or normal temperature.

The principal river of the state is the Columbia, traversing the whole extent of the state from east to southwest and marking a portion of the southern boundary. Its tributaries are the Snake—joining at or near Pasco, the Yakima, Okanogan (in the north-central portion), the Spokane and numerous lesser streams. Flowing into Puget Sound are the Duwamish, Puyallup, White, Black, Cedar, Snohomish, Snoqualmie, Swinomish, Skagit, Nooksack, Skokomish and others of lesser note. Flowing into the Columbia nearer the Pacific are the Cowlitz and the Lewis rivers, both navigable streams, and into Gray's Harbor flows the Chehalis, navigable to some ex-

tent. Gray's Harbor and Willapa Harbor mark the middle and southern portions of the Washington coast, both being capable of accommodating the ordinary ocean-going vessels of the coast lumber trade. These two are the only accessible harbors of the coast between the Columbia river and the Straits of Fuca.

The principal bodies of fresh water within the state are Lake Washington, forming the eastern boundary of the City of Seattle, and Lake Chelan in the Okanogan country, the former being about twenty miles in length, and the latter nearly forty. Numerous small lakes dot the state and all of them may be said to afford splendid opportunities for the sportsman and angler. The woods of Washington abound with deer, bear and lesser game, while the Olympic peninsula possesses vast bands of elk, and in the mountains are found sheep and goats. Grouse, pheasants, ducks and geese abound, and the introduction of foreign birds is being made.

The following table shows increase in population since 1870:

MEDICAL LAW OF WASHINGTON.

The governor appoints a State Medical Examining Board, consisting of nine members.

The amended law of 1901 reads:

Section 3. Hereafter every person desiring to commence the practice of medicine and surgery, or either of them, in any of its or their branches, in this state, shall make a written application to said board for a license so to do. And each applicant for such license shall be not less than twenty-one years of age, shall furnish a certificate of good moral character, and shall be a graduate of some duly authorized medical college now having at least a three years' graded course. Such applicant at the time and place designated by said board, or at the regular meeting of said board, shall submit to an examination in the following branches: Anatomy, physiology, chemistry, histology, materia medica, therapeutics, preventive medicines, practice of medicine, surgery, obsetrics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear, medical jurisprudence, and such other branches as the board shall deem advisable. Said board shall cause said examination to be both scientific and practical, and of sufficient severity to test the candidate's fitness to practice medicine and surgery; which examination shall be by written or printed, or partly written or partly printed questions and answers, and the same shall be filed and preserved of record in the office of the secretary of said board. After examination, if the same be satisfactory, said board shall grant a license to such applicant to practice medicine and surgery in the State of Washington, which said license can only be granted by the consent of not less than five members of said board, except as hereinafter provided, and which said license shall be signed by the president and secretary of said board, and attested by the seal thereof. The fee for such examinaion shall be ten dollars, and shall be paid by the applicant to the treasurer of said board toward defraying the expenses thereof; and such board may revoke or refuse a license for unprofessional or dishonorable conduct, subject, however, to the right of such applicant to appeal from the decision of said board refusing or revoking such license as hereinafter provided.

Provided, however, That in all cases where an applicant for a license under this act shall produce and exhibit to the examining board a certificate from a Board of Medical Examiners appointed under the laws of any state of the United States and recognizing licenses from this state certifying to the fact that the person presenting such certificate is duly and well qualified to practice medicine and surgery, in the state issuing said certificate, and that said board issuing said certificate has subjected the applicant to a thorough examination to ascertain this fact, he or she may at the discretion of the examining board upon paying the fee herein prescribed and otherwise complying with all the requirements of this act, receive from the examining board provided for in this act a license as if an examination of said applicant was had in this state, and upon filing said license with the clerk of the superior court as herein provided he or she shall be a legally qualified practitioner of medicine and surgery in this state, subject to all the provisions of this act as to the revocation of said license as herein provided.

"Section 7. The person receiving said license shall, before he or she commences the practice of medicine or surgery or any of their branches, file the same or a certified copy thereof, with the county clerk in and for the county where he or she resides, and said county clerk shall file said certificate, or copy thereof, and enter a memorandum thereof giving the date of said license and name of the person to whom the same was issued, and the date of such filing, in a book to be provided and kept for that purpose; and said county clerk shall each year furnish to the secretary of said board a list of all certificates on file in his office, and upon notice to him of a change of location or death of a person so licensed, or of the revocation of the license granted to such person, said county clerk shall enter, in the appropriate place in the record so kept by him, a memorandum of said fact, so that the records kept by the county clerk shall correspond with the records of the board as kept by the secretary thereof. In case a person so licensed shall move into another county in this state, he or she shall procure from the county clerk a certified copy of said license, and file the same with the county clerk in the county to which he or she shall remove. Said county clerk shall file and enter the same with like effect as if the same were the original license. Proof of failure to file said license or copy thereof, with the county clerk as herein provided, shall be prima facie evidence of a violation of this act, and shall be punishable as provided herein. The county clerk's records shall be the only evidence required as proof of such failure to file, but may be rebutted by competent testimony.

"Section 8. Any person practicing medicine or surgery or either of its or their branches within this state without having first obtained and filed the license provided for in this act, or contrary to the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not less than fifty dollars nor more than one hundred dollars, or by imprisonment in the county jail not less than ten days nor more than ninety days, or both such fine and imprisonment. In all prosecutions under the provisions of this act, evidence that the defendant has failed to file a license with the county clerk, as herein required, shall be prima facie evidence that the defendant is not a legally licensed practitioner, and each day of such illegal practice shall be deemed a separate offense under this act. All fines collected under the provisions of this act shall be paid into the state treasury for the use and benefit of the common schools of this state. Any person shall be deemed as practicing within the meaning of this act who shall have and maintain an office or place of business with his or her name and the words "physician" or "surgeon," "Doctor," "M. D." or "M. B.," in public view,

or shall assume or advertise the title of doctor or any title which shall show or shall tend to show that the person assuming or advertising the same is a lawful practitioner of any of the branches of medicine or surgery in such a manner as to convey the impression that he or she is a practitioner of medicine or surgery under the laws of this state; or any person who shall practice medicine under a false or assumed name, or under cover of the name of some legal practitioner, or personate any legal practitioner, or for a fee prescribe or direct, or recommend for the use of any person any drug or medicine for the treatment, care or relief of any wound, fracture or bodily injury, infirmity or disease. Provided, however, That this act shall not apply to dentists while confining themselves strictly to dentistry. Justices of the peace and the superior court shall have concurrent jurisdiction of violations of this act. It shall be the duty of the respective county or district attorneys to prosecute all violations of this act. In cases of appeal to the superior court, as hereinbefore provided, it shall be the duty of the prosecuting attorney of the county wherein such appeal shall be tried to represent said board upon said appeal. And in all cases of appeal to the supreme court under the provisions of this act the attorney general shall represent said board upon such appeal.

WEST VIRGINIA.

CAPITAL, CHARLESTON

Population of State, 958,800.
(U. S. Census of 1900.)
Number of Physicians, 1,501.

West Virginia was set off from Virginia, December 31, 1862, and admitted as a state June 19, 1863. It has, according to the United States Census of 1900, a population of 958,800, as against 762,794 in 1890, representing an increase during the decade of 196,006, or 25.7 per cent. This rate of increase compares favorably with that for the decade immediately preceding, which was 23.3, but both are considerably less than that for the ten years from 1870 to 1880, which was 39.9 per cent. The first census of West Virginia was taken in 1870, seven years after it was organized as a separate state, and the population at that time was 442,014. Since then it has increased by satisfactory percentages, and is at present more than twice as large as it was in 1870. The total land surface is, approximately, 24,645 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 31.0; 1900, 38.9. It extends from 37 degrees, 6 minutes to 39 degrees, 37 minutes north latitude and from 77 degrees, 43 minutes to 82 degrees 33 minutes west longitude, and is bounded on the north by Pennsylvania and Maryland, on the south and east by Virginia and on the west by Kentucky and Ohio. The climate is mild and healthful, the mean annual temperature being 54.27 degrees; that of the summer 71.40 degrees, and of the winter 36.66 degrees. The average annual rainfall is about 43 inches. The state is elevated throughout and mostly mountainous, the whole eastern portion is traversed by parallel ridges of the Allegheny mountains. The western part of the state is a rolling table land gently sloping down from 2,500 feet in the east to 900 feet on the banks of the Ohio river. The two principal rivers of the state are the Ohio and the Potomac. Both flow along its borders and drain the state with numerous affluents. The principal of these are the Big Sandy, Guyandot, Elk, Monongahela, Kanawha, Cheat, Little and Great Cacapon, Shenandoah, etc.

MEDICAL LAW OF WEST VIRGINIA.

THE FOLLOWING PROVISIONS FROM THE ACT OF 1895 SET FORTH THE LAW AS IT NOW IS WITH REGARD TO ADMISSION TO THE PROFESSION OF MEDICINE IN WEST VIRGINIA; AMENDING AND RE-ENACTING SECTION 9 OF CHAPTER 150 OF THE CODE OF WEST VIRGINIA:

WHO MAY PRACTICE MEDICINE IN THIS STATE.

9. The following persons and no others shall hereafter be permitted to practice medicine in this State, viz.: First—All such persons as shall be legally entitled to practice medicine in this State at the time of the passage of this act.

Second—All such persons as shall pass an examination before the State Board of Health and shall receive certificates from the said Board to that effect, as hereinafter provided.

EXAMINATIONS BY THE STATE BOARD OF HEALTH.

9a. The State Board of Health shall, at such times as a majority of them shall deem proper, hold examinations for the licensing of practitioners of medicine. Such examinations shall be not less in number than three, during each year, and shall be held at such points in the State as shall be most convenient to those presenting themselves for examination to the State Board of Health. At such examinations written and oral questions shall be submitted to the applicants for license, covering all the essential branches of the sciences of medicine and surgery, and the examination shall be a thorough and decisive test of the knowledge and ability of the applicants. The President and Secretary of the State Board of Health shall issue certificates to all who successfully pass the said examination, and such certificates, after being duly recorded as hereinafter provided, shall be deemed licenses to practice medicine and surgery in all their branches in this State.

The State Board of Health shall give timely notice of the time and place of holding each such examination, by publishing such notice in at least three newspapers of general circulation in this State, and all persons wishing to present themselves for examination should notify the Secretary of the State Board of Health to that effect. No applicant for license to practice medicine in this State shall be rejected because of his or her adherence to any particular school or theory of medicine. The State Board of Health shall call to their assistance, in the examination of any applicant who professes the homœopathic or eclectic school of medicine, a homœopathic or eclectic physician duly licensed to practice medicine in the State, and such homœopathic or eclectic physician so called to the assistance of the State Board of Health shall be allowed the per diem and actual expenses incurred, hereinafter allowed to regular members of the State Board of Health; provided, however, that the provisions of this and the preceding section shall not apply to physicians living in other States and duly qualified to practice medicine therein, who shall be called into consultation in this State by a physician legally entitled to practice medicine in this State under these sections.

WISCONSIN.

CAPITAL, MADISON.

Population of State, 2,069,042.
(U. S. Census of 1900.)
Number of Physicians, 2,607.

Wisconsin was organized as a territory July 3, 1836, and admitted as a state May 29, 1848. It has, according to the United States Census of 1900, a population of 2,069,042, as against 1,686,880 in 1890, representing an increase since 1890 of 382,162, or 22.7 per cent. The following table shows the increase in population since 1840:

1840.....	30,945	1880.....	1,315,497
1850.....	305,391	1890.....	1,686,880
1860.....	775,881	1900.....	2,069,042
1870.....	1,054,670		

The total land surface is, approximately, 54,450 square miles, the average number of persons to the square mile at the censuses of 1890 and 1900 being as follows: 1890, 31.0; 1900, 38.0. It extends from 42 degrees, 31 minutes to 46 degrees, 58 minutes north latitude, and from 87 degrees to 92 degrees, 53 minutes west longitude, and is bounded on the north by Lake Superior, on the northeast by the northern Peninsula of Michigan, on the east by Green Bay and Lake Michigan, on the south by Illinois, and on the west by Iowa and Minnesota. The climate is cool and pleasant, the mean annual temperature being 45.40 degrees, that of the summer 69.11 degrees and of the winter 20.84 degrees. The average annual rainfall is about 31 inches. The surface is comparatively level. The Penokee range, about 30 miles south of Lake Superior, is the highest elevation. A slight ridge borders Lake Michigan for 30 miles inland. The state has exceptional facilities for water transportation. Its coast line on Lake Superior is 120 miles, on Lake Michigan 200 miles and on the Mississippi river 400 miles. The affluents of Lake Superior, owing to the structure of the country, are short and have much fall. They are the Montreal, Bad, Burnt Wood and St. Louis. The Peshtigo, Menominee, Pensaukee, Oconto, Fox and Wolf run into Green Bay. The Mississippi receives the Chippewa, St. Croix, Wisconsin, Black, Rock, Buffalo and Trempealeau. Other important streams are the Sheboygan, Manitowoc, Milwaukee and Kewaunee flowing into Lake Michigan. The whole state is dotted with picturesque inland lakes. The northern and central portions of the state have extensive forests of pine, basswood, hickory, maple, elm, ash, black walnut, butternut, oak, birch, poplar, hemlock and cedar. The southern portion is an extensive prairie with very little native timber, except along the banks of the streams. Lead, iron, copper, zinc, salt, alum, and building materials constitute the principal mineral resources. The state ranks third in the production of sandstone, fourth in zinc and fifth in iron. Agriculture is the chief industry, the staple crops being corn, oats, wheat, rye, barley, hay, buckwheat, hops, flax, hemp, pulse, sorghum and tobacco. Dairying and live stock raising are important. The manufactures are extensive and rapidly increasing, the state being well known for its output of lumber, woodenware, beer, brick, boots and shoes, leather, harness, etc. Age, wealth and population considered, the state is unexcelled in the matter of public institutions. Its educational as well as its penal and charitable institutions, have been liberally established and intelligently supported, every effort having been put forth to raise to the highest degree the character and efficiency of them all.

WISCONSIN MEDICAL LAW.

AN ACT relating to the State Board of Medical Examiners, and to the registration and licensing of persons engaged in the practice of medicine, surgery, or osteopathy in the State of Wisconsin.

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. The governor shall appoint a board of medical examiners to be known as the Wisconsin State Board of Medical Examiners, consisting of eight (8) members. Such appointments shall be made from separate lists presented to him every second year, one list of ten (10) names presented by the Wisconsin State Medical Society, one list of ten (10) names presented by the Homeopathic Medical Society of the State of Wisconsin, one list of ten (10) names presented by the Wisconsin State Eclectic Medical Society, and one list of five (5) names presented by the Wisconsin State Osteopathic Association. In case any of said societies or associations fail to present such list of names, the gov-

ernor may fill vacancies in the board by appointment from the last list filed by such association or society previous to the occurrence of such vacancy. The appointment of each member of said board shall be for the term of four (4) years and until his successor is appointed and qualified; the proportion of the different schools of medicine, as herein provided, shall be preserved. No instructor, stockholder, member of, or person financially interested in any school, college or university having a medical department, or of any school of osteopathy, shall be appointed a member of said board. Three members of said board shall be allopathic, two shall be homeopathic, two eclectic and one osteopathic, and all shall be licentiates of said board, and no member shall serve for more than two consecutive terms, provided nothing contained in this act shall be construed as terminating or in any manner interfering with the term of any member of the present state board of medical examiners, but each of said members shall serve out his present term as a member of said board.

Section 2. Said board shall annually, at its July meeting, elect from its members a president, secretary and treasurer, and shall have a common seal. The president and secretary may administer oaths for the accomplishment of the objects of the board. Said board shall hold regular meetings on the second Tuesday in each January at Milwaukee and the second Tuesday of each July at Madison, and such other meetings at such other times and places as it may from time to time determine. The board shall keep a record of all its proceedings and also a register of all applicants for license, together with a record showing their ages, time spent in the study of medicine and the name and location of all institutions granting to such applicants degrees or certificates of lectures in medicine, surgery or osteopathy. Said register shall also show whether such applicant was rejected or licensed, and said books and register shall be prima facie evidence of all the matters required to be kept therein.

Section 3. All persons commencing the practice of medicine, surgery or osteopathy in any of their branches in this state shall apply to said board at the time and place designated by said board, or at any regular meeting thereof, for license so to practice, and shall present to said board a diploma from a reputable college of medicine and surgery or osteopathy. A college to be deemed reputable by this board shall require at least four courses of not less than seven months each before graduation, no two of such courses to be taken within any one twelve months, and that shall require for admission thereto a preliminary education equivalent to that necessary for entrance to the junior class of an accredited high school in this state, including a one year's course in Latin, and that shall after the year 1906 require for admission to such school a preliminary education equivalent to graduation from an accredited high school of this state, and shall submit to an examination in the various branches in medicine and surgery usually taught in reputable medical colleges, or if the applicant be an osteopath he or she shall present a diploma from a regularly conducted college of osteopathy maintaining a standard in all respects equal to that hereby imposed on medical colleges as to preliminary education, said college after 1904 to give three courses of eight months each, no two courses to be given in any one twelve months, and after the year 1909 such college shall give four courses of seven months each, as hereinbefore provided for medical colleges, and shall pass the regular examination of such board in anatomy, histology, physiology, obstetrics, gynaecology, pathology, urinalysis, chemistry, toxicology, dietetics, physical and general diagnosis, hygiene, and theory and practice of osteopathy. The examination in Materia Medica, Therapeutics and Practice shall be conducted by members of the board representing the school of practice, which the applicant claims or intends to follow. After examination, as hereinebfore provided, the board shall, if it find the applicant qualified, grant a license to said applicant to practice medicine and surgery in all their branches in this state, or a license to practice osteopathy therein, which license can only be granted by the consent of not less than six members of said board, and which, afer the payment of fees as hereinafter provided, shall be signed by the president and secretary thereof, and attested by the seal of the board. Osteopaths, when so licensed, shall have the same rights and privileges and be subject to the same laws and regulations as practitioners of medicine and surgery, but shall not have the right to give or prescribe drugs or to perform surgical operations. The fee for examination shall be fixed by the board, but shall not exced $15.00 in each case, with $5.00 additional for the license if issued. Such fee or fees shall be paid by the applicant to the treasurer of the board and may be applied toward defraying any proper and reasonable expenses of the board; provided, however, that any student who is exempted as a matriculant of any medical college of this state under chapter 306 of the laws of 1901, whose name is now on file with the Wisconsin State Board of Medical Examiners, shall, on the presentation of a diploma from any Wisconsin college, and on the payment of the fees specified in this act, and having satisfied said board that he or she is a person of good moral character, be licensed to practice without further examination by such board, provided that said college maintains its standard herein required. Every person practicing medicine or surgery in the State of Wisconsin, who, at the time of the passage and publication of this act, has not received a license from said board, and who shall after such passage and publication present a diploma from a reputable medical college and give satisfactory evidence of having been a reputable practitioner of medicine and surgery in the State of Wisconsin continuously since the first day of July, 1897, shall be granted a license without examination upon the payment of a fee not exceeding $5.00, as determined by said board. Any person applying for such license shall, if he or she be possessed of a certificate of registration issued under and according to the provisions of chapter 87 of the laws of 1899, present such certificate to said board with the diploma and application of such license, and surrender said certificate on the issuance of said license, the registration fee paid for same shall be deducted from the last named fee. Any practitioner of medicine or osteopathy holding a certificate from any other state board imposing requirements equal to those established by the board provided for herein, may, on presentation of the same, with a diploma from a reputable medical or osteo-

pathic college, be admitted to practice within this state without an examination, at the discretion of the board, on the payment of the fee fixed by the board, not exceeding the sum of $25.00.

Section 4. All money received by the board shall be kept by the secretary thereof, who shall also act as treasurer, out of the funds coming into their possession from the fees mentioned in the preceding section; the board may pay all legitimate and necessary expenses incurred by them, their agents or employes in the discharge of the duties of the board, and the members may receive for their services a sum to be determined by the board, not exceeding five dollars for each day actually spent in attending to the business of the board; the secretary shall receive a salary to be fixed by said board, not to exceed one thousand dollars per annum. Such salary, compensation and expenses shall be paid from the fees received by the board, and no part thereof shall be paid out of the state treasury. The secretary shall furnish to the board such bond as they may from time to time direct. It shall be the duty of said board to make a report of their proceedings to the governor at the end of each biennial period, together with an account of all moneys received and disbursed by them, and all moneys in excess of actual expenses shall be paid into the state treasury, the secretary of said board securing a receipt therefor, said moneys there to remain as an emergency fund which may be withdrawn in whole or in part by said board in case of necessity with the consent of the governor. Said biennial period shall begin Dec. 31, 1904. The provisions of this act shall not apply to commissioned surgeons of the United States army, public health and marine hospital service, or to physicians or surgeons of other states or countries in actual consultation with resident physicians of this state.

And provided, further, that any practitioner of medicine or surgery holding a license from the state board of medical examiners of any adjoining state, dated since January 1st, 1901, shall on presentation of the same within one year from the taking effect of this act, accompanied by a certificate from the secretary of the state board of medical examiners of the state issuing the license that such applicant is a reputable practitioner of medicine and surgery, be licensed to practice medicine and surgery in this state, without an examination, at the discretion of the board, on payment of the fee.

Section 5. Eery person hereafter practicing medicine, surgery or osteopathy in this state shall be required to have the license herein provided for, or heretofore issued by the Wisconsin State Board of Medical Examiners, or a certificate of registration issued pursuant to the provisions of chapter 87 of the laws of 1899, and any person having or hereafter receiving a license according to the provisions of this act, or having such certificate of registration, shall record the same with the county clerk of any county in which said person shall practice and pay to said clerk or clerks a fee of fifty (50) cents each for recording the same, and said clerk shall enter a memorandum thereof, giving the date of said license or certificate, the name of the person to whom it was issued, school of practice chosen, and the date of such recording in a book to be provided and kept for that purpose. Any such person who shall fail to record his or her license or registration certificate, as herein provided, shall not exercise any of the rights or privileges confered by such license or certificates. And any person beginning such practice without having obtained such license, or having obtained such license contrary to law, or any person who, not having such license or certificate of registration herein referred to, shall advertise or hold himself or herself out to the public as a physician, surgeon, osteopathist or specialist in any of the branches of medicine, surgery or osteopathy, or who shall use the title of "Doctor," or shall append to his or her name the letters "M. D." or "M. B.," meaning doctor or bachelor of medicine, or "D. O.," meaning doctor or diplomat of osteopathy, or any other letters of designation meaning any of the titles enumerated in this section, shall be punished by a fine of not less than $50.00 nor more than $100.00 for each offense, or by imprisonment in the county jail for a term not exceeding three months, or by both such fine and imprisonment. Any person practicing medicine, surgery or osteopathy, or without authority assuming the title of "doctor of medicine," "doctor or diplomat of osteopathy," "bachelor of medicine," or "physician," or "surgeon," or "osteopathist." or "osteopath," shall not be exempted from but shall be liable to all the penalties and liabilities for malpractice which physicians, surgeons or osteopathists are liable to, and ignorance on the part of any such person shall not lessen such liability for failing to perform, or for negligently or unskillfully performing or attempting to perform any duty assumed, and which is ordinarily performed by physicians, surgeons or osteopathists. If any person licensed or registered by said board shall be convicted of any crime committed in the course of his professional conduct, the court in which such conviction is had may, in addition to any other punishment imposed pursuant to law, revoke such license or certificate. Said board shall have the power to adopt such rules for its government and may require the filling out of such blanks by applicants as it may deem necessary in order to ascertain the true character and qualifications of an applicant for license, and the board may in its discretion refuse to grant license to any person who does not furnish satisfactory proof of good moral and professional character.

Section 6. Every person shall be regarded as practicing medicine or osteopathy within the meaning of this act who shall append to his or her name the letters "M. D.," "M. B." or "D. O.," Doctor, Dr., or any other letters or designation with intent to represent that he or she is a physician, surgeon or osteopathist, or who shall for a fee prescribe drugs or other medical or surgical treatment or osteopathic manipulation for the cure or relief of any wound, fracture, bodily injury, infirmity, or disease; provided, however, that nothing in this act contained shall be construed to apply to any dentist or resident refracting optician engaged in he pracice of his or her profession.

Section 7. It shall be the duty of the board of medical examiners to investigate all complaints in regard to the violation, or disregard of, or non-compliance with, the provisions of this act, and to bring all such cases to the notice of the proper prosecuting

officers, and it shall be the duty of the district attorney of the proper county to prosecute all violations of this act.

Section 8. No person practicing medicine, surgery or osteopathy shall have the right to collect, by law, any fees or compensation for the performance of any medical or surgical services, or fees for any service as an osteopathist, or to testify in a professional capacity as a physician, or surgeon, or insanity expert, in any case, unless he or she holds a license from the Wisconsin Board of Medical Examiners, or the certificate of registration hereinbefore referred to, with a diploma from a reputable medical college or society, or a certificate of membership in a medical society, and has been duly recorded as a practitioner in the State of Wisconsin; provided, that nothing in this act contained shall be construed as restricting any court in a criminal action from receiving the testimony of any person as a witness.

Section 9. All acts or parts of acts in any wise conflicting with the provisions of this act are hereby repealed.

Section 10. This act shall take effect and be in force from and after its passage and publication.

WYOMING.

CAPITAL, CHEYENNE.

Population of State, 92,531.
(U. S. Census of 1900.)
Number of Physicians, 142.

Wyoming was organized as a territory July 25, 1868, from what was then the southwestern portion of Dakota, northeastern part of Utah and eastern part of Idaho. On July 10, 1890, the territory was admitted as a state by Act of Congress, being the forty-fourth state in order of admission. It has according to the United States census of 1900, a population of 92,531, as against 60,705 in 1890, representing an increase during the decade of 31,826, or 52.4 per cent. The population of the Territory of Wyoming in 1870 was 9,118, and it increased to 20,789 in 1880. During the next ten years the increase was 39,916 or 192.0 per cent, giving a total population of 60,705 in 1890. Its geographical location classes it among the states of the intermountain or arid region, being bounded on the north by Montana, on the east by Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. Its length from east to west is 355 miles; width from north to south 276 miles, and it has an area of 97,890 square miles or 62,645,120 acres. In general appearance the country is mountainous, with valleys, rolling plains and plateaus, the latter covered with grasses of great nutrition, and furnishing admirable pasture for live stock, while the main elevation is 6,000 feet above sea level, with extremes ranging from 3,000 to 14,000 feet. Probably 10,000,000 acres of the total area of the state are covered with timber. Flowing east or west, according as their source is on the eastern or western slope of the main range of the Rocky Mountains, which cross the state from north to south, are numerous streams, among the number being the North Platte, Snake River, Green, Big Horn, Laramie and Yellowstone. None of these streams are navigable in a commercial sense, but they furnish water for the irrigation and development of the surrounding country and in some instances are used for the transportation of timber. The soil is a light sandy loam, darker and richer in the valleys. When reclaimed by the application of water, bountiful returns of agricultural products with the exception of such as thrive only at low altitudes and warm damp climates, are secured. It is estimated that 10,000,000 acres of the area of the state are suitable for agricultural purposes by irrigation.

SYNOPSIS OF MEDICAL LAW OF WYOMING.

Section 1. The Governor, by and with the advice and consent of the Senate, shall appoint three persons, who shall be electors of this State, who shall constitute the State Board of Medical Examiners.

Sec. 3. It shall be the duty of the State Board of Medical Examiners to pass upon the qualifications and determine the fitness of all persons who may desire to practice medicine, surgery or obstetrics, or who may publicly profess to cure or treat disease, injury or deformity in any manner whatever in this State.

Sec. 4. Every person practicing medicine in any of its departments shall possess the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State Board of Medical Examiners for verification as to its genuineness. If the diploma is found to be genuine, and issued by a medical college of recognized merit, said college being a member of the American Association of Medical Colleges, the Homœopathic Institutes or the National Eclectic Medical Association, or any college of similar standing in foreign countries, and if the person named therein be the person claimed and presenting the diploma, the State Board of Medical Examiers shall issue its certificate to that effect, signed by the majority of all the members thereof, with the seal of the board attached, and such diploma and certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State; Provided, no person holding diplomas, certificates or other credentials from schools or institutions other than those of recognized merit, as specified in this chapter, shall be permitted to practice in this State until he has passed a satisfacory examination before said Board. Said examination may be in whole or in part in writing, and shall be of an elementary

and practical character, and shall be upon the subjects following: Anatomy, Physiology, Chemistry, Pathology, Materia Medica and Therapeutics, Hygiene, Theory and Practice of Medicine, Surgery and Obstetrics, and sufficiently strict to test the qualifications of the candidate as a practitioner. For the said examination a fee of twenty-five dollars shall be paid by the candidate to the treasurer of said board.

Sec. 5. The State Board of Medical Examiners shall receive through its secretary applications for certificates and examination. The president, or acting president, shall have the authority to administer oaths, and the board may take testimony in all matters relating to their duties; they shall issue certificates to all who furnish satisfactory proof of having received diplomas as provided in section four of this act. The board shall prepare certificates for those entitled thereto. Said board shall hold annual meetings, and in selecting places to hold their meetings they shall, so far as it is reasonable, accommodate applicants residing in different sections of the State, and due notice shall be published of all their meetings.

Sec. 6. Said State Board of Medical Examiners shall examine diplomas as to their genuineness and character, and if the diploma shall be found genuine as represented and of a character hereinafter provided, said board shall receive a fee of five dollars from each graduate, and no further charge shall be made to the applicants except the fee for recording the same, as hereinafter provided. In case of application made by any person holding a diploma, as required by section five of this chapter, for a certificate to practice within the State, it shall be sufficient for the applicant to present such diploma and proofs to the secretary of such board, and if such board be not then in session, such secretary shall inform the members of the board of such application, by writing or otherwise, as will be most practicable, or the facts upon which such application is based, and thereupon such members shall, in writing, advise such secretary as to whether such application be allowed or rejected and, if allowed, the certificate shall be issued as in other cases in this chapter provided The verification of the diploma shall consist in the affidavit of the holder and applicant that he is the lawful possessor of the same, and that he is the person therein named. Such affidavit may be taken before any person authorized to administer oaths, and the same shall be attested under the hand and official seal of such officer. Graduates may present their diplomas and affidavits as provided in this act, by letter or by proxy, and the State Board of Medical Examiners shall issue its certificate the same as if the owner of the diploma was present.

Sec. 7. The board shall be permitted to issue a certificate to any person who has not a diploma from some recognized college as contemplated in this act, but who has been actually engaged in the practice of medicine for a period of ten years, the last five of which shall have been in this State, upon the payment of five dollars, and making application as set forth in sections four and six of this act, and finding proof by affidavit or otherwise, to the satisfaction of such board, setting forth the place of residence, time and places wherein such applicant has practiced, and showing such applicant to be a person of good moral character and sobriety.

Sec. 13. Nothing in this act shall be construed to prohibit students from prescribing under the immediate supervision of preceptors or to prohibit gratuitous service in case of emergency, and this act shall not apply to commissioned surgeons of the United States army or navy, or medical examiners of relief departments of railroad companies, while so employed, or any lawfully qualified physicians residing in other States or countries meeting registered physicians of this State in consultation, or any physician or surgeon residing upon the border of a neighboring State, and duly authorized under the laws thereof to practice medicine and surgery therein, whose practice extends into the limits of this State.

Sec. 15. The State Board of Medical Examiners shall examine all persons upon the theory and practice of obstetrics who openly profess to practice obstetrics and midwifery, who do not have authority to practice medicine or surgery; and they may issue to such candidates and person or persons who shall pass satisfactory examination, certificates which shall authorize and empower them to practice obstetrics or midwifery. No person shall practice obstetrics or midwifery unless either a practicing physician authorized to practice under the provisions of this act, or holding such certificates as are prescribed by this section; Provided, that nothing in this section shall be construed to prohibit persons from rendering services in cases of obstetrics or midwifery in cases of emergency.

Sec. 16 Any itinerant who has not qualified as hereinbefore provided, who shall sell or offer for sale any drug, nostrum, ointment or appliance of any kind intended for the treatment of any disease or injury, or shall by writing, printing or other method, except by ordinary professional card or sign, publicly profess to cure or treat disease, injury or deformity by any drug, nostrum or in any manner whatever, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than fifty dollars nor more than one hundred dollars and costs of prosecution, for each offense, and shall be committed until such fine and costs are paid.

The Hawaiian Islands are located in the Pacific Ocean, and extend from 18 degrees 55 minutes to 22 degrees 16 minutes north latitude and from 154 degrees 40 minutes to 160 degrees 30 minutes west longitude. They are about 2,000 miles west of the United States, 3,400 from Yokohoma and 4,800 from Hong Kong. The inhabited islands of the group are eight in number, their area being as follows: Hawaii, 4,210 square miles; Maui, 760; Oahu, 600; Kauai, 590; Molokai, 270; Lanai, 150; Niihau, 97, and Kahoolawe 63, making a total of 6,740 square miles. By joint resolution of Congress, July 6, 1898, Hawaii was annexed to the United States and is governed under an act which became law April 30, 1900, providing that the islands shall be known as the "Territory of Hawaii," and that the capital shall be at Honolulu. The legislature consists of two houses—Senate and House of Representatives—composed of 15 and 30 members respectively. Hawaii is represented in the Congress of the United States by a delegate who is elected biennially by the people. The climate is equable, the mean annual average temperature as observed at Honolulu being about 72 degrees. The well known leper settlement is located on Molokai island. There are over 75 miles of railroad and 250 miles of telegraph. Honolulu, the capital, has a population of 28,061, is lighted by electricity and possesses most of the facilities and advantages of a modern, enterprising American city.

MEDICAL LAW OF HAWAII.

LICENSE IS REQUIRED.

Section 827 P L. No person shall practice medicine or surgery as a profession in the Territory of Hawaii, either gratuitously or for pay or shall offer to so practice, or shall advertise or announce himself, either publicly or privately, as prepared or qualified to so practice without having first obtained from the treasurer under seal of his department a license in form and manner substantially as hereinafter set forth. Such license shall only be granted upon the written recommendation of the board of health.

ISSUED ON THE RECOMMENDATION OF BOARD OF HEALTH.

All licenses to practice medicine or surgery heretofore granted by the treasurer upon the recommendation of the board of health, and in force at the time of the passage of this act, shall remain in force, subject to the provisions of this act.

DEFINING THE PRACTICE OF MEDICINE.

Section 828 P L. For the purposes of this act the practice of medicine shall be held to include the use of drugs and medicines, water, electricity, hypnotism, or any means

BACKWARD CHILDREN. Our institution provides a Christian home with expert instruction for constitutionally defective children and adults, backwardness and awkwardness of speech, speech hesitation, lisping, burring, cleft palate, lalling, nasal twang, tied tongue, paralysis of the vocal chords, substitution of sounds, defective articulation, coupled with backwardness of intellect, and all other forms of imperfect utterance of speech and articulation.

or method, or any agent, either tangible or intangible, for the treatment of disease in the human subject. Provided, however, that nothing herein contained shall be held to forbid any person from the practice of any method, or the application of any remedial agent or measure under the direction or with the approval of a licensed physician.

MEDICAL EXAMINERS.

Section 829 P. L. No person shall be recommended by the board of health for a license to practice medicine or surgery except upon the written report of a board of medical examiners, to be appointed and constituted as hereinafter provided, setting forth that the applicant named therein has been duly examined and found to be possessed of the necessary qualifications.

TO BE APPOINTED BY GOVERNOR.

Section 830 P. L. For the purpose of carrying out the provisions of this act, the governor is hereby authorized and directed to appoint a board of medical examiners, whose duty it shall be to examine all applicants for license to practice medicine or surgery, and to report the result of such examination to the board of health.

Such board of medical examiners shall consist of three persons, all of whom shall be licensed physicians or surgeons under the laws of this territory. The first appointment shall be for one, two and three years respectively, and all subsequent appointments, unless to fill out unexpired terms, shall be for three years, subject, however, to removal for cause by the governor. The members of the board of medical examiners shall serve without pay.

APPLICANT TO PAY A FEE OF $10.

Section 831 P. L. No applicant for license to practice medicine or surgery shall be examined, until he shall have paid to the treasurer a fee of ten dollars.

PENALTY FOR VIOLATING THE STATUTE.

Section 832 P. L. Any person who shall practice medicine or surgery in the Hawaiian Islands, or who shall offer or attempt to so practice, or shall advertise or announce himself, either publicly or privately, as prepared or qualified to so practice, contrary to the provisions of Section 827, shall be guilty of a misdemeanor, and shall be liable on conviction to a fine of not more than two hundred and fifty dollars, in the discretion of the court.

LICENSE REVOCABLE.

Section 833 P. L. Licenses to practice medicine and surgery, whether granted under the provisions of this act or of any act heretofore existing, may be revoked by the treasurer at any time for professional misconduct, gross carelessness or manifest incapacity; such misconduct, carelessness or incapacity, having been proven to the satisfaction of the board of health, and by that body reported in writing to said treasurer. In case any license is revoked for any of the causes named in this section, the holder thereof shall immediately be notified of such revocation in writing by the treasurer.

Section 834 P. L. In case of an alleged misconduct, carelessness or incapacity on the part of any holder of a license to practice medicine or surgery, the person so charged shall be notified in writing of the charge or charges that have been made, and of the time and place when and where evidence in support of the same will be heard, and shall have the opportunity to present evidence and be heard in his own defense.

Section 835 P. L. The form of license to practice medicine and surgery shall be substantially as follows:

Territory of Hawaii,
Treasurer's Office.

LICENSE TO PRACTICE MEDICINE AND SURGERY.

..... a native of ....., aged ..... years, having been duly examined by the board of medical examiners, and having been recommended by the board of health as possessed of the necessary qualifications, is hereby licensed to practice medicine and surgery in the Territory of Hawaii.

This license is granted and accepted on the express condition that it may be revoked at any time for professional misconduct, gross carelessness or manifest incapacity; such misconduct, carelessness or incapacity, having been proven to the satisfaction of the board of health, and by that body reported to the treasurer.

Given under my hand and the seal of the treasurer's office, this ..... day of ....., A. D. .....

(Signed).....,
Treasurer.

(Signed).....,
Chief Clerk.

Section 836 P. L. Any person who shall attempt the cure of another by any practice of sorcery, witchcraft, anaana, hoopiopio, hoounauna, hoomanamana, or other superstitious or deceitful methods, shall, upon conviction thereof before a district magistrate, be fined in a sum not less than one hundred dollars or be imprisoned at hard labor not to exceed six months.

PHILIPPINE ISLANDS.

CAPITAL, MANILA.

Population (Estimated), 7,000,000.

Number of Physicians, 323.

This group, consisting of about 2,000 islands, lies off the southern coast of Asia, 8,000 miles distant from the United States, between the China sea and the Pacific ocean. The actual land area is approximately 140,000 square miles. It lies principally between 5 degrees 32 minutes and 19 degrees 30 minutes north latitude and 117 degrees and 126 degrees east longitude. The chief islands are Luzon, Mindano, Samar, Mindoro, Panay, Leyte, Negros, Cebu, Paregua, Bohol and Masbate. The principal ports are Manila, Cebu and Iloilo. The climate is pleasant, equable and healthful. At the level of the sea throughout the entire archipelago the mercury rarely goes below 60 degrees or above 90 degrees F. during the entire year. The mean maximum temperature for each month during the period beginning January 1, 1885, and ending December 21, 1898, was as follows: January, 85.6; February, 87.3; March, 89.9; April, 92.5; May, 91.9; June, 89.8; July, 87.3; August, 87.1; September, 86.9; October, 87.8; November, 86.3; December, 85.3, with a general mean maximum for the twelve months for this period of 88.1. The monthly mean minimum for the same period was as follows: January, 69.3; February, 69.1; March, 71.6; April, 73.9; May, 75.7; June, 75.6; July, 75.2; August, 75.2; September, 75.2; October, 75.3; November, 72.7; December, 70.9 with a general mean minimum during the same period of 73.2. From the middle of November until the middle of March, the temperature in Manila is delightful; from that time on until the latter part of June, it is hot during the middle of the day, but considerably less so than in many of the Southern States during the summer, and cool compared to the Texas Border along the Rio Grande. From July to November, during the rainy season, the temperature is little higher than during the winter months, which is due to the frequent rains and clouded condition of the sky.

The principal products are rice, tobacco, maize, millet, corn, sugar, indigo, hemp, cotton, manila cigars, manila hemp fibre, timber, dye woods, fruit, etc. Very little is known as yet regarding the mineral wealth of the islands. On July 1, 1902, the bill providing for full civil government for the Philippines became law and the office of Military Governor, with military rule, heretofore existing, was terminated. It is now governed by the Philippine Commission, headed by the Governor of the islands, with the other members serving as chief administrative officers of the different executive departments.

AN ACT REGULATING THE PRACTICE OF MEDICINE AND SURGERY IN THE PHILIPPINE ISLANDS.

By authority of the President of the United States, be it enacted by the United States Philippine Commission, that:

Section 1. The commissioner of public health for the Philippine Islands shall appoint a board of medical examiners for the Philippine Islands, with the advice and consent of the board of health for the Philippine Islands, consisting of three physicians, who shall be graduates of a legally chartered and reputable medical college and shall hold the degree of doctor of medicine. They shall hold office for three years after their appointment, and until their successors are appointed and qualified: Provided, that the first appointees shall be appointed for a period of one, two and three years, respectively, as specified in their respective certificates of appointment from the commissioner of public health; and provided further, that no member of the faculty of any school, college or university where medicine or surgery is taught shall be eligible for appointment on said board. Each person appointed to the board shall qualify by taking and subscribing the following oath of office:

"I, ..., having been appointed a member of the board of medical examiners for the Philippine Islands, do hereby solemnly swear that I am a graduate in good standing of the legally chartered medical college or university at ....., in the city of ..... that I will well and truly perform all the duties of said office, that I will faithfully account for all moneys coming into my hands as such officer, that I will bear true faith and allegiance to the government of the United States, and that I take this oath without any mental reservation whatsoever; so help me God."

The oath shall be recorded and filed in the office of the secretary of the board of health for the Philippine Islands. The commissioner of public health shall fill any vacancy which may occur on the board within one month after the vacancy occurs, and may remove any member of said board for continued neglect of duty, incompetency, or for unprofessional or dishonorable conduct with the advice and consent of the board of health for the Philippine Islands.

Sec. 2. The board of medical examiners shall appertain to the department of the interior, so far as executive action may be required in connection with it. It shall organize immediately after the appointment of its members, and annually thereafter on the anniversary of its first organization, by electing from its members a president, who shall be its chief executive officer, and a secretary-treasurer. It shall procure and keep a seal

with which to attest its official acts. The members of the board, except the secretary treasurer, shall receive as compensation the sum of two and one-half dollars ($2.50) each for each candidate examined for registration as doctor or licentiate of medicine, and one dollar ($1.00) each for each candidate examined for registration as undergraduate of medicine or midwife. The secretry-treasurer shall receive compensation at the rate of two hundred dollars ($200) per year, one-half of which amount shall be paid on the 30th of June and one-half on the 31st of December of each year. The amounts due the members of the board of examiners for compensation shall be paid from insular funds and disbursed by the disbursing officer of the board of health for the Philippine Islands. The secretary-treasurer shall execute a bond for five hundred dollars ($500) with good and sufficient sureties, which shall be approved by the treasurer of the Philippine archipelago, conditioned that he will pay to the treasurer of the Philippine archipelago all moneys received by him as treasurer, and that he will faithfully discharge all the duties of his office. He shall keep a record of the proceedings of the board and a register of all persons to whom certificates of registration as doctors of medicine, licentiates of medicine, undergraduates in medicine, or midwives, have been granted under the provisions of this act, setting forth the name, age, sex and place of business of each, his postoffice address, the name of the medical college or university from which he graduated or in which he has studied, if any, and the date of such graduation or term of study, together with the time spent in the study of medicine elsewhere, if any, and the names and locations of all institutions which have granted to him degrees or certificates of clinics or lectures in medicine and surgery, and all other degrees granted him from institutions of learning.

Sec. 3. The board of medical examiners shall meet in the city of Manila for the purpose of examining candidates desiring to practice medicine in the Philippine Islands on the second Tuesdays of January, April, July and October of each year after giving thirty days written or printed notice of such meeting to each candidate who has filed his name and address with the secretary-treasurer of the board. The board of medical examiners shall issue a certificate of registration to any person who furnishes satisfactory proof of having received a diploma as doctor of medicine from a chartered medical school or college in good standing or a degree as licentiate of medicine and surgery from the St. Thomas University in the city of Manila, or who has received permission to appear before a medical board for examination with a view to obtaining a license to practice medicine, in accordance with the provisions of circular order of the military governor No. 5, issued February 25, 1900, and circular order No. 6, same authority, issued April 1, 1900, and who shall pass a successful examination before the board as hereinafter described. The board shall issue four forms of certificates of registration to persons who have been examined and favorably passed upon by the board: One, for persons holding the degree of doctor of medicine; another, for persons holding the degree of licentiate of medicine; a third, for undergraduates in medicine, or "cirujanos ministrantes;" and a fourth, for midwives. Each certificate shall be signed by a majority of the members of the board. The secretary-treasurer of the board shall collect a fee of fifteen dollars ($15.00) for each certificate of registration as doctor or licentiate of medicine, and a fee of five dollars ($5.00) for each certificate of registration as "cirujanos ministrante," or as midwife, issued by the board.

Sec. 4. The board shall, on or before the 30th of June of each year, make a report to the secretary of the interior of its proceedings during the past year, and of all moneys received and disbursed by it within that period.

Sec. 5. After March 1, 1902, it shall be unlawful for any person to practice medicine, surgery or midwifery in any of its branches in the Philippine Islands, unless he holds a certificate of registration from the board or has otherwise complied with the provisions of this act. Any person in continuous practice of medicine, surgery and midwifery in any of their branches in the Philippine Islands prior to the passage of this act may become a registered practitioner by submitting to the board of medical examiners for the Philippine Islands a diploma of doctor or licentiate of medicine from a reputable medical school or college: Provided, that any person now a member of the highest class in the St. Thomas University in the city of Manila who shall have pursued his studies in medicine and surgery in the said university for not less than five years, and shall receive a degree of licentiate in medicine and surgery from said university in the month of March, 1902, may likewise become a registered practitioner by submitting to the board of medical examiners such degree on or before the first day of April, 1902. For the purposes of this section a physician who has been in the regular practice of his profession in these islands, but whose practice has been interrupted by trips abroad for study or pleasure only, shall be deemed to have been in continuous practice. Provided further, that any person who has passed the requisite examination before a board of examiners convened pursuant to special orders No. 5, office of the United States military government in the Philippine Islands, dated February 25, 1900, and circular No. 6, same authority, dated April 1, 1900, shall not be required to undergo another examination, but shall be entitled to be registered and to receive a certificate of registration as a licentiate of medicine. The fee for such certificate shall be ten dollars ($10.00), provided, further, that any person who has studied medicine in the St. Thomas University of the city of Manila for a period of not less than two years, and has received the title of "cirujano ministrante" from said university may be registered to practice medicine in remote towns of a province where no civilian doctor of medicine or licentiate of medicine is available, upon passing a satisfactory examination before the provincial board of health for the province in which he desires to practice and paying to its provincial treasurer a fee of five dollars ($5.00) for a certificate of registration, which shall thereupon be issued to him by the president of the provincial board of health.

Sec. 6. Every person hereafter desiring to begin the practice of medicine or surgery in the Philippine Islands shall apply to the board of medical examiners for a certificate of registration as doctor of medicine, and such applicant shall submit to an examination in the following branches, to-wit: Anatomy, physiology, chemistry, materia medica and therapeutics, pathology and bacteriology, hygiene, surgery, practice of medicine, obstetrics, diseases of women and children, diseases of the nervous system, diseases of the

eye and ear, medical jurisprudence; and shall present a diploma of doctor of medicine from a medical school or college recognized as reputable by the board of health for the Philippine Islands. Examinations may be written or oral, or both. In case any applicantcant shall fail to pass a satisfactory examination, he shall not be permitted again to present himself for examination until a period of six months has elapsed.

Sec. 7. Every person holding a certificate of registration from the board of medical examiners shall have it recorded in the office of the registrar of deeds in the province or provinces within which he may deseri to practice, or in the city of Manila, as the case may be, before engaging in the practice of medicine, surgery or midwifery, and until such certificate is so recorded, the holder thereof shall not exercise any of the privileges to practice medicine conferred therein. The holder of the certificate shall pay the registrar the usual fees for recording such certificate.

Sec. 8. The board of medical examiners may refuse to issue any of the certificates provided for in this act to an indiidual convicted by a court of competent jurisdiction of any offense involving immoral or dishonorable conduct. In case of such refusal, the reason therefor shall be stated to the applicant in writing. The board may also revoke any such certificate for like cause, or for unprofessional conduct, after due notice to the person holding the certificate, and a hearing, subject to an appeal to the board of health for the Philippine Islands, the decision of which shall be final.

Sec. 9. Any person shall be regarded as practicing medicine within the meaning of this act who shall treat, operate upon, prescribe for any physical ailment of another for a fee, or who shall represent himself by means of signs, cards, advertisements or otherwise as a physician or surgeon; but nothing in this act shall be construed to prohibit the rendering of services in cases of emergency or the administration of family remedies, or to apply to medical officers of the United States army, the United States navy or the United States marine hospital service, or to physicians and surgeons from other countries, provinces or cities called in consultation, or to actual medical students practicing medicine under the direct supervision of a preceptor who is a registered doctor of medicine.

Sec. 10. Any person practicing medicine or surgery within the Philippine Islands without first having obtained the certificate of registration herein provided for, or otherwise contrary to the provisions of this act, shall, upon conviction, be punished by a fine of not more than one hundred and fifty dollars ($150.00), or by imprisonment for not more than ninety days, or both, in the discretion of the court.

Sec. 11. Any person desiring to practice obstetrics in the Philippine Islands shall be entitled to a certificate of registration as midwife from the board of medical examiners, upon passing a satisfactory examination and paying to the secretary-treasurer of the board a fee of five dollars ($5.00). The examination shall be of such a character as to determine the qualifications of the applicant for the practice of midwifery. Any person practicing midwifery in the Philippine Islands without first having obtained the certificate of registration herein provided for, or otherwise contrary to the provisions of this act, shall, upon convction, be punished by a fine of not more than fifty dollars ($50.00) for each offense: Provided, that this section shall not be construed to prevent a doctor of medicine or licentiate of medicine who holds a certificate of registration as such from practicing obstetrics, or to prohibit the gratuitous rendering of obstetrical services by a friend or member of the family of the patient, or to prohibit the rendering of obstetrical services by any person in a case of emergency, nor shall it apply to persons practicing midwifery in municipalities where there are no licensed practitioners.

Sec. 12. No person shall in any way advertise as a doctor of medicine, physician or surgeon, or prefix or append the letters "Dr.," "M. D.," or "M. B." to his name, who has not had duly conferred upon him by diploma or degree from some college, school or board of examiners legally empowered to confer the same, the right to assume said title; nor shall any person assume any title, or prefix or append any letters to his name with the intent to represent falsely that he has received a medical degree or license or certificate of registration. Any person violating this provision shall, upon conviction, be subject to a fine of not more than one hundred dollars ($100.00), or to imprisonment for not more than ninety days.

Sec. 13. Where the word "dollars" is used in this act, it shall be understood to mean dollars in money of the United States.

Sec. 14. This act shall take effect on its passage.

Enacted December 4, 1901.

PORTO RICO.

CAPITAL, SAN JUAN.

Population (Taken by U. S. Government in 1900), 953,243.

Number of Physicians, 82.

The Island of Porto Rico, one of the most eastern of the West Indies, is located in that portion of the Atlantic Ocean known as the Caribbean Sea, 1,411 miles from New York and 1,050 from Key West, Fla. It is a parallelogram in shape, being 108 miles from east to west and 37 to 43 miles across, giving a total area of about 3,600 square miles. The climate is hot but tempered by prevailing northeast winds, the temperature dropping from 97 degrees in the shade during the hottest hours to 67 or 68 degrees at night. The rainy season lasts from August to December. There is an abundant water supply and there are over twelve hundred streams including about fifty entitled to be called rivers. The island is exceedingly fertile and the principal industries are agriculture and lumbering. The chief crops are sugar, tobacco, coffee, maize and tropical fruits. Chief exports are coffee, sugar, tobacco, honey, molasses, cattle, hides and lumber.

MEDICAL LAWS.

REQUIREMENTS FOR REGISTRATION.

The superior board of health administers general orders through an examining committee appointed by the board, composed of three graduates in medicine and surgery, two in pharmacy and one in dentistry, of recognized ability in their professions, and with not less than ten years' practice therein. This committee shall be divided into sub-committees and empowered to hold examnations in medicine and surgery, pharmacy and dentistry. Executive officer, secretary of the board. Registration of the license from the superior board of health in the office of the board. Fee $5.

The candidate must present to the board his diploma or certificate, which, if satisfactory, admits to examination. Licensing: The board of health, on the recommendation of the examining committee, certifies under seal that the candidate has given satisfactory evidence as to character, professional education and all other matters required by general orders. The examinations are prepared from questions submitted to the board of health by the examining committee, which marks the answers and reports results to the board of health. Legal practitioners under the Spanish government may receive a license on payment of the registration fee. Graduates of reputable medical and dental schools licensed, after examination, by state boards may, on payment of the fee of $25, be licensed by the board of health without examination. Fee for physicians and surgeons, dentists pharmacists $25, for practicantes $15.

SYNOPSIS OF REQUIREMENTS.

For the information of those who are not acquainted with the requirements necessary for registration as medical practitioners in this Province, the following synopsis is given:

1. Sub-sec. (C), Sec. 24, Med. Act, 1898, provides: The Council shall admit upon the register any person who shall produce from any college or school of medicine and surgery, requiring at least four years' course of study, a diploma of qualification; provided, that where the college or school of medicine did not require a course of study of at least four years, but a post-graduate course has been taken, which in point of time added, to the college or school of medicine course, completes a period of four years, it shall be deemed sufficient; provided, also, that the applicant shall furnish to the Council satisfactory evidence of identification, and pass before the members thereof, or such of them as may be appointed for the purpose, a satisfactory examination touching his fitness and capacity to practice as a physician and surgeon.

2. Sub-sec. (B), Sec. 24, provides that: The Council shall admit upon the register every person mentioned in chapter 48 of the Acts of Parliament of the United Kingdom, passed in the 49th and 50th years of Her Majesty's reign, duly registered under the "Medical Act" (Imperial), prior to and inclusive to the 30th day of June, 1887, upon complying with the orders, regulations or by-laws of the Council, and giving due proof of such registration, and that the person applying for registration has not lost the benefit of the same, by reason of misconduct or otherwise.

3. Every person applying for registration under Sub-sec. (C), Sec. 24, Medical Act, 1898, shall, on appearing in person before the Registrar of the Council and paying a fee to the Registrar of one hundred dollars, be entitled to be registered on producing to such Registrar a certificate duly authenticated under the hand and seal of the Registrar of Medical Practitioners in England, Ireland and Scotland, as the case may be (or other legal evidence), that such applicant is a duly registered medical practitioner, and that he was duly registered under the "Medical Act" (Imperial) on or before the 30th day of June, 1887. Such applicant will also be required to produce a certificate of good standing in the profession of medicine from the Registrar or other officer of the medical body having jurisdiction where such applicant last practiced his profession, and evidence by statutory declaration that he has not lost the benefit of his said registration under the "Medical Act" (Imperial), by misconduct or otherwise.

4. Sub-sec. (D), Sec. 24, provides that: Any homœopathic physician holding a diploma of qualification from any authorized school or college requiring at least a four years' course of study, which has been undergone by the applicant, may be registered under this act upon passing before the Council or such of them as may be appointed for that purpose, a satisfactory examination in the following subjects, viz.: Anatomy, Physiology, Pathology, Chemistry, Obstetrics and Surgery.

5. The examination shall be orally and in writing, upon the following subjects:

1. Anatomy.
2. Chemistry.
3. Physiology.
4. Pathology.
5. Materia Medica.
6. Medical Jurisprudence.
7. Theory and Practice of Medicine.
8. Theory and Practice of Surgery.
9. Clinical Medicine.
10. Clinical Surgery.
11. Obstetrics and Diseases of Women and Children.

6. Before examination the candidate shall pay to the Registrar of the college the fee of one hundred dollars for the examination, fifty of which shall be returned if the candidate be rejected.

7. During the year there shall be two regular meetings and two examinations held, beginning on the first Tuesday of May and the last Tuesday of October.

All examinations are held at the college rooms, in the new Parliament Buildings, Victoria.

8. Permits are not granted by the Council.

For further information apply to the Registrar, Victoria, B. C.

MEDICAL LAW FOR MANITOBA.

SYNOPSIS OF REQUIREMENTS.

The College of Physicians and Surgeons of Manitoba is composed of every registered medical practitioner in the Province, and is the sole licensing body.

Its license to practice is granted upon the certificate of Manitoba University that the holder is a graduate of said University, by examination, or that the party applying is a licentiate of a College of Physicians and Surgeons, or of any other incorporated body of medical men exercising similar powers, in a Province of the Dominion where reciprocal rights are granted to the graduates of Manitoba University by examination, and licentiates of the College of Physicians and Surgeons of Manitoba.

The fee for registration and license is $75.

By the Medical Act of 1886 all the examining powers which previousy belonged to the College of Physicians and Surgeons were vested in Manitoba University, and in lieu thereof four members chosen from the Council of the College of Physicians and Surgeons are members of the University Council.

For further particulars apply to the Registrar.

MEDICAL LAW.

SYNOPSIS OF REQUIREMENTS.

The Medical Council of Physicians and Surgeons of New Brunswick is composed of 9 legally qualified medical practitioners of not less than seven years' standing, four of whom are appointed by the Governor and five by the New Brunswick Medical Society (of which every licensed practitioner is a member)

Matriculation.—Hereafter (1881) no person shall begin or enter upon the study of physics, surgery or midwifery for the purpose of qualifying himself to practice the same unless he shall have obtained from the Council a certificate that he has satisfactorily passed a matriculation or preliminary examination, or unless he has passed a matriculation examination in arts and science at some recognized college.

Registration.—In order to obtain a license to practice, the applicant must have passed the preliminary examination; he must have studied medicine during four years; he must have passed the professional examination, irrespective of any diploma which he may possess. The professional examination is held in St. John annually in June.—Journal of the American Medical Association.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement.
Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ¶, Druggist; ⌇, Dentist.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

MEDICAL LAW.

SYNOPSIS OF REQUIREMENTS.

The Provincial Medical Board consists of thirteen practitioners, of at least seven years' standing, seven of which are appointed by the Governor and six elected by the Medical Society (i. e., the profession). To obtain a license, each applicant must pursue the following course:

Matriculation.—No person shall begin the study of medicine in order to qualify himself for practice in this province unless he has first completed his sixteenth year and paid a fee of $10, presented satisfactory college certificate or passed the examination prescribed by the board.

Curriculum.—Every student must attend in the study of medicine four collegiate sessions of at least eight months each year.

Professional examinations consist of the following: First professional, after end of second year of medical study, fee $15; second professional, at end of third year of study, fee $10; third professional, at end of fourth year, fee $25.—Journal of the American Medical Association.

MEDICAL LAW.

SYNOPSIS OF REQUIREMENTS.

The College of Physicians and Surgeons of Ontario is the name adopted by the medical profession of the Province of Ontario in its corporate capacity. The Council of the College of Physicians and Surgeons of Ontario is empowered and directed to enact by-laws for the regulation of all matters connected with medical education, and to fix the terms upon which practitioners of medicine duly qualified in other countries may be admitted as members of the College of Physicians and Surgeons of Ontario, this being the only mode in which they can become legally entitled to practice their profession in the province.

MATRICULATION.

Everyone desirous of being registered as a matriculated student in the register of this college shall be required to pay a fee of twenty dollars and to conform to the following regulations:

The attention of Physicians is called to the advertisement of Van Vleck's Glandular Remedies on Page 41. VAN VLECK is the largest exclusive manufacturer of GLAND PRODUCTS in the world.

1. Any person who presents to the Registrar of the Medical Council a certificate that he has passed the examination conducted by the Education Department on the course prescribed for matriculation in Arts, including chemistry and physics, and approved by the Lieutenant-Governor in Council, shall be entitled, on payment of the lawful fees in that behalf, to registration as a medical student within the meaning of section 19 of the Ontario Medical Act.

2. A certificate from the Registrar of any chartered university conducting a full Arts course in Canada, that the holder thereof has passed the senior matriculation of such university or the examination conducted at the end of the first year in Arts by such university, shall entitle such holder to registration as a matriculate.

3. Graduates in Arts, in any university in His Majesty's dominions, are not required to pass this examination, but may register their names with the Registrar of the College upon giving satisfactory evidence of their identity, the presentation of a certificate of qualifications, and the payment of the fee of twenty dollars.

4. Every medical student, after matriculation shall be registered in the manner prescribed by the Council, and this shall be held to be preliminary to his medical studies, which will not be considered to begin until after the date of such registration.

MEDICAL CURRICULUM.

Every student must spend a period of five years in actual professional studies, except as hereinafter provided; and the prescribed period of studies shall include four winter sessions of eight months each. The fifth, or final year, shall be devoted to clinical work, six months of which may be spent with a registered practitioner in Ontario, or with an approved practitioner outside of Ontario, and six months must be spent at one or more public hospitals, dispensaries or laboratories devoted to physiolgical or pathological research, Canadian, British or foreign, approved by the Council, and must attend at least one hundred clinical lectures or demonstrations, as follows: Twenty-five on medical cases, twenty-five on surgical cases, twenty-five on obstetrical and gynæcological cases, and twenty-five on pathology, certificates for which must be presented to the Registrar of the Council, signed by teachers of schools or colleges recognized by the Council, together with a certificate of six months' hospital attendance during the fifth year. A certificate of having been house surgeon in a recognized hospital for one year will be accepted in lieu of these clinical lectures and hospital attendance.

Graduates in Arts or science of any college or university recognized by the Council who shall have spent two years in the courses of physics, chemistry, biology and physiology, and shall have passed examinations in their university course in the said subjects while taking their degree, will be required to spend four years in the study of medicine, and on condition that prior to the third year they shall have passed the Primary examination, they shall be permitted to take both the Intermediate and Final examinations on completion of the fourth year, but shall have no remission in the number of clinical lectures.

Homœopathic students who attend four sessions in a college approved of by the Homœopathic representatives in the Council, where the sessions are more than six months, shall be held to have fulfilled the requirements of this college in that regard.

Graduates in medicine from recognized colleges outside the Dominion of Canada, who desire to qualify themselves for registration, must pass the matriculation required by the Council, and must attend one or more full winter courses of lectures in one of the Ontario medical schools (a) and must complete fully the practical and clinical curriculum required by the Council after the fourth year, and shall pass before the examiners appointed by the Council all the examinations hereinafter prescribed, so as to complete fully the curriculum.

British registered medical practitioners, on paying all fees and passing the Intermediate and Final examinations, shall be registered; provided, that they have been in active practice for five years after having been registered therein as practitioners. British registered medical practitioners who have not been in practice for five years will be registered on passing the professional examinations and paying all necessary fees.

Until a Homœopathic medical college for teaching purposes is established in Ontario, candidates wishing to be registered as Homœopathists shall pass the matriculation examination established by this Act as the preliminary examination for all students in medicine, and shall present evidence of having spent the full period of study required by the curriculum of the Council, under the supervision of a duly registered homœopathic practitioner.

Such candidates must also have complied with the full curriculum of studies prescribed from time to time by the Council for all medical students, but the full time of attendance upon lectures and hospitals required by the curriculum of the Council, may be spent in such homœopathic medical colleges in the United States or Europe as may be recognized by a majority of the homœopathic members of the Council; but in all homœopathic colleges where the winter course of lectures is only four months' duration, certified tickets of attendance on one such course shall be held to be equivalent to two-thirds of one six months' course, as required by the Council; and when such teaching body has been established in Ontario, it shall be optional for such candidates to pursue in part or in full the required curriculum in Ontario

Examinations—Professional examinations are divided into three parts, primary, taken after the second session; intermediate and final. Fees: Registration of matriculation, $20; primary examination, $30; intermediate and final, $50; registration of membership, $25; registration of additional degrees, $2; annual assessment, $2.

IT IS ADMITTED BY ALL THAT

....TORONTO, CANADA,

IS "PAR EXCELLENCE"

The Medium for . . .
Medical Journal Advertisers

It is printed on 80-pound paper, is freely illustrated, and has, every month, from 80 to 100 pages of the brightest and most crisp medical news obtainable.

The Subscription Price, Canada and the U. S., is only $1.00 per annum, Payable in Advance.

Medical advertisers say that they would rather have a half-page advertisement in THE CANADIAN JOURNAL OF MEDICINE AND SURGERY, for twelve months, than a full page in all the other Canadian medical journals combined. Our advertisers are usually so well pleased with the results obtained that they wish to double their space the second year. For sample copy, advertising rates, etc., ADDRESS

MEDICAL LAWS.

SYNOPSIS OF REQUIREMENTS.

The Council of the Medical Society (i. e., medical profession) of Prince Edward Island is composed of seven members, elected by the registered members of the Society. Every applicant for registration must satisfy the Council: 1. That he has passed a preliminary or matriculation examination on the subjects specified in the by-laws of the Council and had his name registered in the Medical Students' Registry; any person holding the degree of B. A. from a university in the British dominions or a teacher's first-class certificate of the province is exempted. 2. That after such examination and registration he has studied medicine four years in a university or medical college of good standing. 3. That he has satisfactorily passed a professional examination before the Council—Journal of the American Medical Association.

Fees—The fee for registration in the Medical Registry is $20; for the professional examination, $25; for the matriculation examination, $10, and for registration in the Medical Students' Register, $2.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ¶, Druggist; ‹, Dentist.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

MEDICAL LAW.

SEC. 3—ADMISSION TO PRACTICE.

3976. No person shall practice medicine, surgery or midwifery in the Province, unless he has obtained a license from the Provinicial Medical Board, which is hereby authorized to issue such license, unless he be registered in accordance with this section. 42-43 V., c. 37, s. 6; 45 V., c. 32, s. 3.

3977. Every person who obtains a medical degree or diploma in any university or college mentioned in Article 3972 is entitled to such license, without examination as to his medical knowledge and skill, provided that such diploma has only been given after four years of medical study from the date of admission to study, and according to the requirements of this section, and provided also that the Provincial Medical Board has power to grant the same privilege to holders of degrees or diplomas of medicine and surgery from other British, Colonial or French universities or colleges. 42-43 V., c. 37, s. 7.

3977a. The privileges above conferred upon the holders of degrees or diplomas from British colleges and universities are hereby extended to every person whose name is entered upon the Medical Register, under the Imperial Medical Act, 1886 (49-50 Victoria, Chapter 48), or of any act amending the same. (Added by 52 V., c. 39, s. 1.)

Home Treatment for Tobacco and Neurasthenia. SEE PAGE 5.

3978 No person shall be admitted as a student of medicine, surgery or midwifery, unless he has obtained a certificate of qualification from the Provincial Medical Board.

No one is entitled to the license of the College, on presentation of a diploma, unless he has been previously admitted to the study of medicine in accordance with the provisions of this section, or unless he has passed an equivalent preliminary examination before a college, school or board authorized by law to require and cause such preliminary examinations to be passed in His Britannic Majesty's other possessions. 42-43 V., c. 37, s. 8.

3979. At a regular meeting of the Board, after the expiration of the present triennial term, the Provincial Medical Board shall appoint, for three years (and similarly every third year), four persons actually engaged in the work of education in the Province of Quebec, to examine candidates for the study of medicine, surgery and midwifery, on the subjects of general education hereinafter mentioned, as belonging to the preliminary qualifications of medical students, viz.:

One examiner speaking the French language and one the English language, for the city of Montreal; and

One examiner speaking the French language and one the English language, for the city of Quebec.

The subjects for the preliminary qualifications to be English and French, Latin, geography, history, arithmetic, algebra, geometry, belles-lettres and one of the following subjects: Greek, natural or moral philosophy.

The candidate must present a certificate of good moral character. 42-43 V., c. 37, s. 9.

3980. Every candidate for a license to practice medicine, surgery and midwifery in this Province, desiring to be registered, and who has not obtained a degree or diploma in medicine, surgery and midwifery from any of the institutions mentioned in Article 3972, shall, before being entitled to such license, and the registration, pass an examination before the Board, as to his knowledge and skill, for the efficient practice of medicine, surgery and midwifery; and, upon passing the examination required, and proving to the satisfaction of the examiners that he has, in an institution for the teaching of medicine, in His Majesty's possessions, complied with the rules and regulations made by the Provincial Board, and on payment of such fees as the Board may, by general by-law, establish, such person shall be entitled to such license. 42-43 V. c. 37, s. 10.

3981. All persons coming from any recognized college outside of His Majesty's possessions, and who are desirous of obtaining a license from the College of Physicians and Surgeons of the Province of Quebec, must previously pass the preliminary examination before the examiners appointed by the Provincial Medical Board, or establish, to the satisfaction of the Board, that they have already passed an equivalent examination.

They must, moreover, follow in one of the schools of medicine in this Province, a complete course (for six months) of lectures, and such other course or courses as shall be necessary to complete the curriculum required by the Board; they shall also pass the professional examination before the Provincial Medical Board.

Such persons may pass their professional examination immediately after their preliminary examination. 42-43 V., c. 37, s. 11.

LIST OF PHYSICIANS

ARRANGED ALPHABETICALLY BY POSTOFFICES.

For Corrections and Names Received Too Late for Regular Insertion, see Supplement. Refer to Index for Location.

ABBREVIATIONS:

R., Regular; H., Homoeopathic; Ecl., Eclectic; P. M., Physio-Medical; *, No report received; §, Holds certificate of Examining Board; †, Legally authorized under the "years of practice" section of the act; ¶, Druggist; ⟨, Dentist.

The postoffice address is shown in DISPLAY TYPE, the name of the county in which it is located immediately follows and then the population of the place. The names of physicians appear under the postoffice name, the first number (the key to which will be found on pages 145-189) indicates the college of graduation, and the last number the year in which diploma was granted.

MEDICAL LAW.

SYNOPSIS OF REQUIREMENTS.

The Newfoundland Medical Board shall consist of seven members, of whom four shall be resident medical practitioners in St. Johns. Four members shall be a quorum for all purposes.

Every person shall be entitled to have his name registered on the Newfoundland Medical Register upon satisfying the Board that he holds a medical degree or diploma from some regular university or school of medicine, having a four years' course of study, and that he has, prior to obtaining such degree, passed a preliminary or matriculation examination satisfactory to the Board, and upon paying to the Registrar the fee prescribed by the Board.

The Board may, after examination, grant to any person, not otherwise qualified or entitled to registration under this Act, a license to practice medicine, surgery or midwifery for a limited period in specified localities. The names of such licensees, together

with the period for and the locality in which they may practice, shall be entered in the register and published as hereinbefore provided in the case of registered medical practitioners. Such licensee shall pay the fee prescribed by the Board, and shall thereupon be entitled to demand and recover in any court reasonable charges for aid and advice, together with the cost of any medicine or other medical or surgical appliances supplied by him during the period and within the limits of his license.

Piedmont Concentrated Iron and Alum Water

does away with the old method, as it is a Mineral Water Remedy in CONCENTRATED form, reduced 160 times; containing 20 different minerals, which are nearly identical with those found in a healthy human body.

No natural Mineral Water is its equal, and we honestly do not believe there is anything known to science which is so effective in the cure of INDIGESTION, RHEUMATISM, CATARRH, STOMACH and BOWEL DISORDERS, KIDNEY and BLADDER TROUBLES, FEMALE COMPLAINTS, SCROFULA and OTHER BLOOD and SKIN DISEASES.

Over 200 physicians in Virginia alone prescribe it. Absolutely NOT a Patent Medicine. At druggists; 18 oz. bottles, $1.00; 8 oz. bottles, 50c.

A teaspoonful in half glass ordinary water makes a dose.

Six 18 oz. bottles will be sent free of cost to any physician in the United States, who is willing to test it and give his opinion (favorable or unfavorable) afterwards. Each bottle equal to 25 gals. of the natural water.

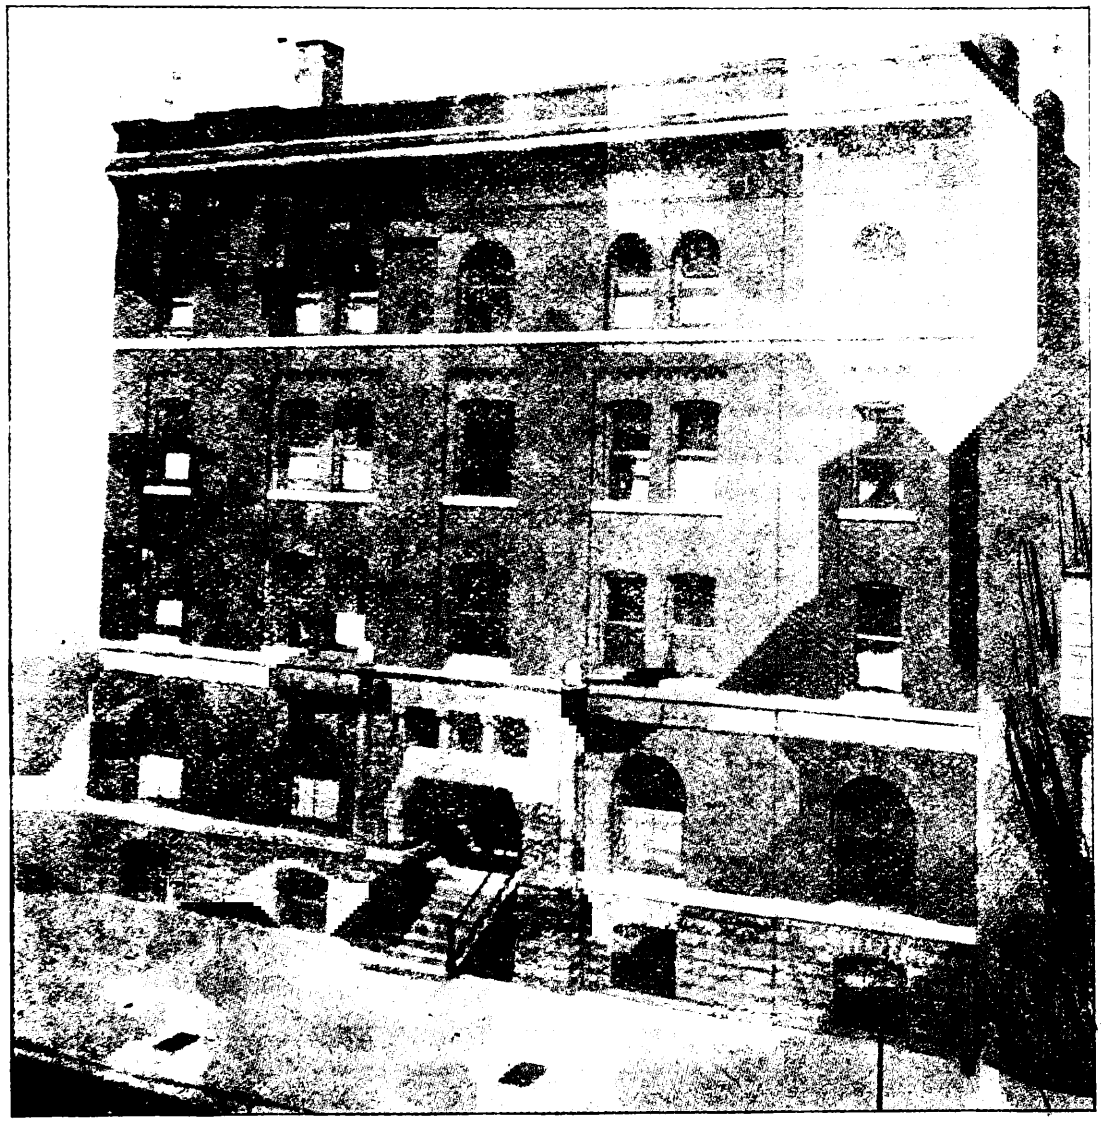
Training School for Nurses.



(Founded and Incorporated 1880.)

The Board of Directors offers a three years' course of training to women who desire to enter the profession of nursing. The course of training comprises practical work in the wards, theoretical work in class and lecture rooms, and cooking lessons; being divided into Junior, Middle and Senior years.

The facilities for imparting theoretical and practical training to nurses are thorough and complete in all departments, including instruction by the ablest professors from different medical colleges, and the daily care of nearly one thousand patients in medical, surgical, obstetrical, gynecological, children's and contagious wards. Applications for admission must be made to the Superintendent,

This College is a member of the "Association of American Medical Colleges." Four regular courses are required prior to graduation. The Preliminary Fall Course begins September 1st; the Regular Winter Course begins October 1st.

Thorough Laboratory work is required in Biology, Comparative Anatomy, Human Anatomy, Chemistry, Histology, Physiology, Embryology, Bacteriology, Pathology, Clinical Pathology, and Operative Surgery.

Practical Hospital and Dispensary work is required during the third and fourth years. The wards of the Maryland General Hospital are filled with patients suffering from nearly every form of disease and injury, furnishing a large Clinic for Medical and Surgical cases. Our Maryland Lying-in Hospital, immediately adjacent, presents excellent advantages for the study of practical Obstetrics.

There is abundant clinical work in Obstetrics, Gynaecology, Medicine, Surgery, Eye and Ear, Nose, Throat and Chest, Diseases of Children, Nervous and Mental Diseases, etc. The Baltimore Medical College Dispensary furnishes an out-door Clinic of 25,000 patients annually. Our College Buildings are spacious, comfortable, and among the most completely equipped in the United States, and are located on Madison street, corner of Linden avenue, on Linden avenue, and on Howard street. They contain a large Lecture Hall, a Clinical Amphitheatre, an Anatomical Amphitheatre, and Laboratories of Anatomy, Biology, Histology, Physiology, Chemistry, Pathology, Bacteriology, etc., all of which are thoroughly equipped.

Terms reasonable. For further particulars send for Catalogue, and address

Course of Instruction and Facilities.

Four years of graded instruction are required of candidates presenting themselves for the degree of M. D. The instruction consists in didactic lectures, amply supplemented by clinical teaching at the bedside and in the laboratories and dispensaries.

In addition to the members of the Faculty named above, there is a large corps of experienced instructors who assist the professors in practical work in the laboratories or in bedside work at the hospitals and dispensaries. Every candidate for the degree is personally taught, by dividing the class into small sections, in Clinical Medicine and Physical Diagnosis, Obstetrics and Gynecology, Major and Minor Surgery and Bandaging, Orthopedic Surgery, Diseases of Children, Ophthalmology, Neurology, Otology, Dermatology, Laryngology, and Genito-Urinary Diseases. Ample clinical material is afforded by the Jefferson College Hospital, in which no less than 300 patients are treated daily, and by the Philadelphia and other Hospitals.

Laboratory instruction is given in Medical Chemistry, Pharmacy, Physiology, Clinical Microscopy, Anatomy, and Histology, and in Operative Obstetrics, Surgery, Pathology and Hygiene.

Daily instruction in the practical branches is given in the Hospital of the College, is a special feature of the course in the second and third years, and is without extra charge.

Special Laboratory instruction is given to graduates of medicine in Bacteriology and Pathology.

The Annual Announcement, giving full particulars, will be sent on application to

J. W. HOLLAND, M. D., Dean.

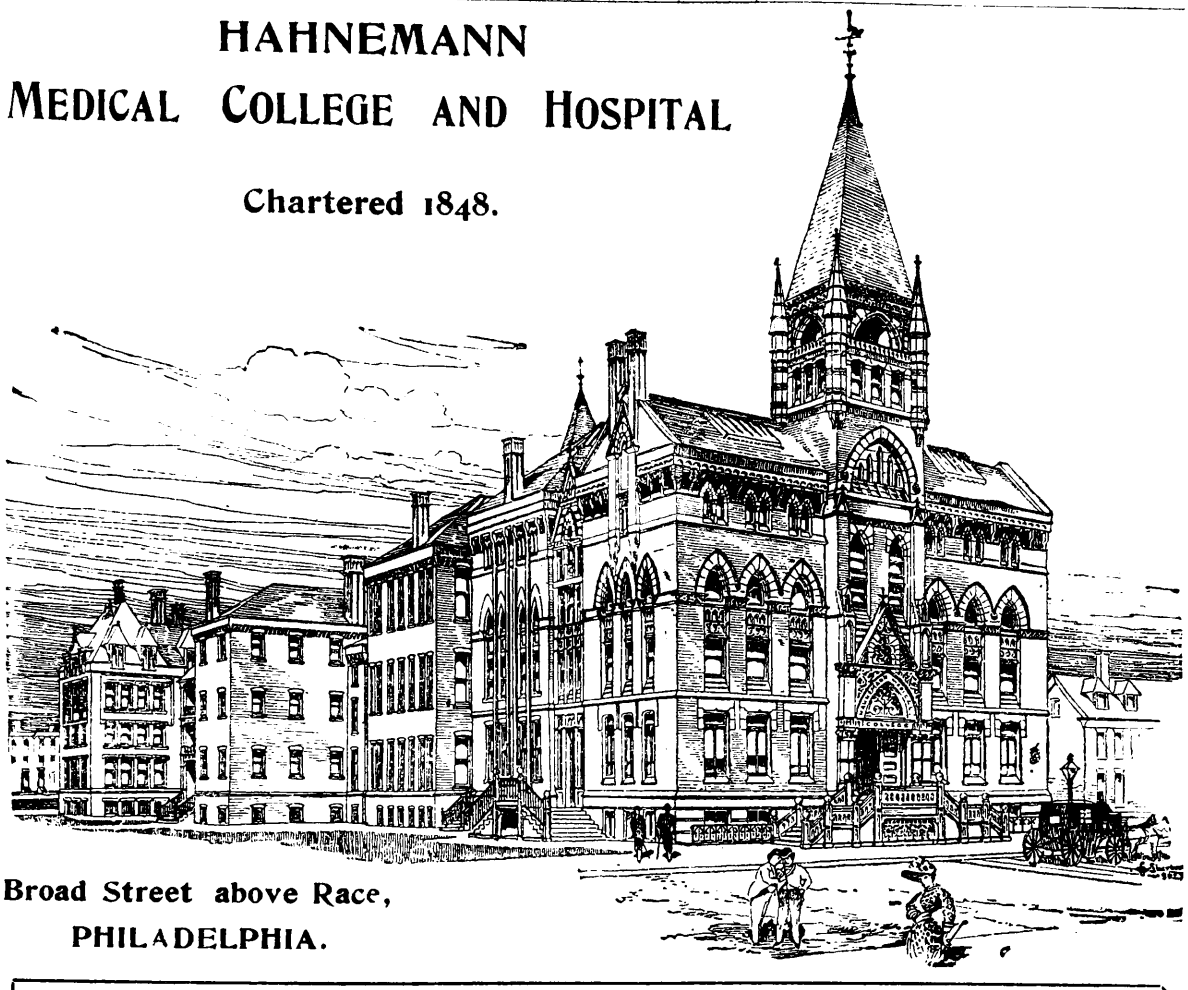
HAHNEMANN
MEDICAL COLLEGE AND HOSPITAL

Chartered 1848.



Broad Street above Race,
PHILADELPHIA.

Medical Students, in selecting their Alma Mater, should

REMEMBER:

1st. That the Hahnemann Medical College of Philadelphia is the oldest Homoepathic Medical College in the world, and her alumni, 2689 in number, are found in every State in the Union and in the Faculty of every Homoepathic Medical College in the country.

2d. That its College and Hospital buildings are new and modern in construction and complete in every detail.

3d. That they are located in the heart of the city, within two squares of the City Hall, and convenient to all places of interest and public resort.

4th. That it has a museum of Anatomical and Pathological specimens not excelled in size and variety in this country.

5th. That it has a library of 15,000 volumes to which students have access.

6th. That its Laboratories—Anatomical, Physiological, Histological, Chemical, Pharmacological, etc., etc.—are fully equipped in every detail.

7th. That it has a corps of experienced Professors, Lecturers and Demonstrators, 54 in number.

8th. That its teachings are broad and liberal, embracing everything essential to a thoroughly educated modern physician.

9th. That it has a large Hospital in which about 35000 patients are treated annually, and that senior students have six months' experience in the several departments of its Dispensary, in which they examine, diagnose and treat hundreds of cases, embracing all classes of disease and accident, under the direction of the Professors and Instructors.

10th. That in the Obstetrical Department every senior student is drilled in the use of Obstetrical instruments, performs all the operations, and attends cases of confinement.

11th. That it requires a good preliminary education and a four years' course of lectures.

12th. That Philadelphia is renowned as the medical center of the country; is a delightful place of residence, and offers a home for the student full of attractions and interesting historical associations.

13th. That announcements may be had by addressing CHARLES M. THOMAS, M. D., Dean, or CHARLES MOHR, M. D., Registrar, Hahnemann Medical College, Philadelphia, Pa.

POMEROY COMPANY,
SURGICAL APPLIANCES.
17 UNION SQUARE, NEW YORK CITY.

SPECIALTIES: The Pomeroy Frame Truss. The "Master" Elastic Stocking. Supporting Belts "Made to Fit." Celluloid Jackets.

MEDICAL DEPARTMENT
WASHINGTON UNIVERSITY.

(St. Louis and Missouri Medical College)

ST. LOUIS, MISSOURI.

The Curriculum Requires Attendance on Four Annual Sessions of Eight Months Each.

The course in the first two years covers the fundamental branches. Thorough training is given in Anatomy, Chemistry, Histology, and Embryology, Physiology, Pathology, Bacteriology, Materia Medica and Therapeutics, the branches which are the basis of clinical work. The work is in charge of specialists, who give their entire time to teaching. During this period the student learns the normal structure and functions of the body and the changes incident to disease.

In the last two years the time is employed in attendance at Clinics and Hospitals. At the same time didactic lectures, recitations and quizzes are conducted in all branches of Medicine and Surgery.

Five-sixths of the appointments in the St. Louis City Hospital, and in the St. Louis Female Hospital, were awarded, ON COMPETITIVE EXAMINATION, to our graduates of 1903.

For further particulars, catalogue, etc., address

ROBERT LUEDEKING, M. D., DEAN,

1806 Locust Street, St. Louis, Missouri.

Sanitary and Artistic methods of floor finishing should interest every physician. Free samples of finished woods and full particulars upon request.

RUSH MEDICAL COLLEGE

...IN AFFILIATION WITH...

THE UNIVERSITY OF CHICAGO.

Under the arrangement of affiliation with the University of Chicago, the instruction of the first two years of the medical course is now given wholly at the University in the spacious Hull Biological Laboratories—four buildings—and the Kent Chemical Laboratory. The students during these two years are members of the University student body as well as of Rush Medical College, and are entitled to all of the privileges of University students. The work of the last two, or clinical years,is given at Rush Medical College, in three commodious buildings, and also in the wards of the Presbyterian Hospital, which adjoins the college. Clinical instruction is also offered in the Cook County Hospital — 1000 beds — in the immediate vicinity of the college, the Chicago Eye and Ear Infirmary, the West Side Hebrew Dispensary, St. Luke's Hospital, and other institutions in the city, full credit being given for such extra mural work.

The requirements for admission to the medical course are equivalent to a four years' high school course of the best grade, and two years of college work. Instruction is given continuously throughout the academic year, which is divided into quarters known respectively as the Autumn, Winter, Spring and Summer quarters and beginning respectively October 1st, January 1st, April 1st, and about June 18th. A recess of one week intervenes between the Autumn and Winter, and Winter and Spring quarters, and one month between the Summer and Autumn quarters.

The general course of instruction in Rush Medical College requires four years of study in residence, with a minimum of attendance upon three Quarters of each year. These years are designated as the Freshman, Sophomore, Junior, and Senior years, respectively.

A student may begin his College work on the first day of any Quarter, and may continue in residence for as many successive Quarters as he desires. Attendance credit will not be allowed, however, for more than three successive Quarters.

Manual training in all departments of medicine is a special feature of the instruction of this College. Systematic recitation and conference courses, conducted in five commodious recitation rooms, are regarded as a most important means of teaching.

The faculty numbers about 190 professors and instructors.

Physicians and medical students are invited to visit the laboratories and to inspect the educational appliances of this school.

VISIT THE REED SCHOOL FOR THE CURE OF STAMMERING. This is the only school of the kind in the country which welcomes visitors at any time during school hours. Positively nothing to hide. No secrets; no "method" of which we are ashamed. When you come to Detroit be sure and visit the Reed School. You may be asked your advice as to treatment for the cure of stammering some day. SEE WHAT WE OFFER. Booklet sent on application by **FRANK A. REED, 387 Hubbard Ave., Detroit, Mich.** (See other bottom lines.)

NORTHWESTERN UNIVERSITY MEDICAL SCHOOL

(CHICAGO MEDICAL COLLEGE)

DR. N. S. DAVIS, Jr., Dean.

THIS Medical School was the pioneer in insisting upon the following points in medical education: The enforcement of a standard of preliminary education; the adoption of longer annual courses; grading of the curriculum.

The regular course now includes four years of eight months each.

The buildings now occupied by the school were erected in 1893. One is a model laboratory building; the other an admirably arranged out-patient hospital.

The equipment of the laboratories is very complete. The professors of chemistry and physiology are practical men and very successful teachers. They devote their entire time to the college. The pathological department is especially well equipped. The courses are most thorough and practical.

The curriculum is arranged in four entirely separate and distinct consecutive annual courses. Instruction is by didactic and clinical lectures, recitations, demonstrations and laboratory and clinical exercises.

The clinical material is unusually large and varied. It is drawn from the South Side dispensary, located in the College Building, and Mercy, St. Luke's, and Wesley Hospitals. Over 24,000 cases were treated in the dispensary last year. Clinical instruction is graded, the simplest specialties being taught first. Clinics are so numerous that each individual student is able to examine patients thoroughly. The seniors make ward visits in divided classes and thus keep track of all the hospital patients. Students in the first year will attend some clinics; those of the other three years comprise the clinical class, and are divided into two divisions—hospital and dispensary. The hospital division is subdivided, one section attending Mercy Hospital and the "College Clinics," the other attending St. Luke's Hospital and the "College Clinics." In the dispensary, the patients are assigned to its several departments, medical, surgical, et al., and small groups of students are assigned for daily work in these departments, the assignments so arranged that each group works four consecutive weeks in each department, and in the course of the year in all departments. The "College Clinics" are conducted by the professors of the several departments, and fourteen are given each week. Dispensary and college clinic hours are from 10 to 12 A. M. and 2 to 4 P. M.

FEES: A matriculation fee of five dollars is paid once. Annual fee is one hundred and sixty-five dollars. A deposit of ten dollars is required to cover breakage; if none occurs this fee is returned.

J. COLLINS WARREN, M.D., LL. D., Moseley Professor of Surgery.
REGINALD H. FITZ, M.D., Hersey Professor of the Theory and Practice of Physic.
JAMES J. PUTNAM, M.D., Professor of Diseases of the Nervous System.
THOMAS DWIGHT, M.D., LL.D., Parkman Professor of Anatomy.
JOHN H. McCOLLOM, M.D., Assistant Professor of Contagious Diseases.
JAMES J. PUTNAM, M.D., Professor of Diseases of the Nervous System.
EDWARD S. WOOD, M.D., Professor of Chemistry.
FREDERICK C. SHATTUCK, M.D., Jackson Professor of Clinical Medicine.
EDWARD H. BRADFORD, M.D., Assistant Professor of Orthopaedics.
FRANCIS H. DAVENPORT, M.D., Assistant Professor of Gynaecology.
T. M. ROTCH, M.D., Professor of Pediatrics.
WILLIAM B. HILLS, M.D., Associate Professor of Chemistry.
WILLIAM F. WHITNEY, M.D., Curator of the Anatomical Museum.
WM. T. COUNCILMAN, M.D., Shattuck Professor of Pathological Anatomy.
CHARLES S. MINOT, S.D., LL.D., Professor of Histology and Embryology.
MAURICE H. RICHARDSON, M.D., Professor of Clinical Surgery.
CHARLES M. GREEN, M.D., Assistant Professor of Obstetrics and Secretary of the Faculty.
HERBERT L. BURRELL, M.D., Professor of Clinical Surgery.
HAROLD C. ERNST, M.D., Professor of Bacteriology.
CHARLES HARRINGTON, M.D., Assistant Professor of Hygiene.
JOHN T. BOWEN, M.D., Assistant Professor of Dermatology.
GEORGE G. SEARS, M.D., Assistant Professor of Clinical Medicine.
THEOBALD SMITH, M.D., George Fabyan Professor of Comparative Pathology.
FRANZ PFAFF, M.D., Assistant Professor of Therapeutics and Pharmacology.
WM. T. PORTER, M.D., Associate Professor of Physiology.
FRANK B. MALLORY, M.D., Associate Professor of Pathology.
WALTER B. CANNON, M.D., Assistant Professor of Physiology.
JOHN WARREN, M.D., Demonstrator of Anatomy.

Candidates for admission must present a degree in arts, literature, philosophy, or science from a recognized college or scientific school, with the exception of such persons, of suitable age and attainments, as may be admitted by special vote of the Faculty, taken in each case. All candidates, whether presenting a degree or not, are required to satisfy the Faculty that they have had a course in theoretical and descriptive (inorganic) chemistry and qualitative analysis, sufficient to fit them to pursue the courses in chemistry given at the Medical School. Students who began their professional studies elsewhere may be admitted to advanced standing; but all persons who apply for admission to the advanced classes must pass an examination in the branches already pursued by the class to which they seek admission.

The course of study required in this School for the degree of M. D. is of four years' duration. This requirement was established at the beginning of the year 1892-93.

The year begins Sept. 29, 1904, and ends on the last Wednesday in June, 1905. Instruction is given by lectures, recitations, clinical teaching and practical exercises distributed throughout the academic year. In the subjects of Anatomy, Histology, Physiology, Chemistry, and Pathology, laboratory work forms a large part of the method of instruction.

ORDER OF STUDIES

First Year.—First Term. Anatomy and Histology. Second Term. Physiology and Physiological Chemistry.

Second Year.—First Term. Bacteriology and Pathology. Second Term. Anatomy, Clinical Chemistry, Materia Medica and Therapeutics, Theory and Practice, Clinical Medicine, Surgery and Clinical Surgery.

Third Year.—Theory and Practice, Clinical Medicine, Surgery, Clinical Surgery, Obstetrics, Pediatrics, Dermatology, Neurology, Gynaecology, and Mental Diseases.

Fourth Year.—Required Studies: Clinical Medicine, Clinical Surgery, Ophthalmology, Otology, Laryngology, Orthopaedics, Legal Medicine, Syphilis, and Hygiene. Elective Studies: Ophthalmology, Otology, Orthopaedics, Gynaecology, Dermatology, Neurology, Bacteriology, Physiology, Physiological and Clinical Chemistry, Hygiene, Operative Surgery, Operative Obstetrics, Anatomy, Embryology, Clinical Microscopy, Advanced Histology, Comparative Etiology of Infectious Diseases.

Matriculation examination requirements are in accordance with those of the Association of American Medical Colleges. Special courses in Latin, Algebra and Physics have been provided by the College for such students as are conditioned.

PLAN OF INSTRUCTION

The plan of instruction comprises a four years' graded course, consisting of didactic and clinical lectures, conferences, laboratory practice, etc., upon the essential branches of the Science of Medicin. In addition to the lectures, there are recitations, clinical teaching and practical work in the laboratory and the dissecting room.

REQUIREMENTS FOR GRADUATION

Candidates must be at least twenty-one years of age. They must have attended four annual courses of lectures of not less than six months' duration each in different years at this College; or have attended three such courses at some other recognized medical college or colleges, and one at this; or, having attended two such courses at some other recognized medical college or colleges and two at this; or have attended one such course at some other recognized college and three at this; or, having been admitted to advanced standing in this College, by having pursued a prescribed course or courses of study in other recognized colleges and universities, as set forth by the Association of American Medical Colleges, shall be required to have attended at this College only such courses of lectures as are necessary to complete the curriculum of four annual courses of lectures. Candidates must have dissected all parts of the cadaver. They must have attended six cases of obstetrics.

The Twenty-fifth Regular Session will commence on the THIRD WEDNESDAY IN SEPTEMBER, 1904, and continue until the third Wednesday in June, 1905.

The course of instruction commences October 1st and extends over eight months.

A four years' course is required for graduation.

The dissecting rooms and laboratories for chemistry, histology, pathology and bacteriology are fully equipped, and the courses in them are compulsory.

Systematic clinical instruction is given in diseases of the eye, ear, throat, gynecology, neurology, and venereal diseases at the college clinic.

Two hours a day clinical lectures are given in the amphitheatre of the Cincinnati Hospital.

Bedside instruction is given in the same institution to small classes of students.

In addition to the lectures and laboratory work at the college, recitations are held in the various branches.

The college possesses a separate building for its dispensary service, and a maternity hospital for the teaching of obstetrics.

The Laura Memorial College has been absorbed, and full control of the Presbyterian Hospital has been given to the Faculty of Miami Medical College.

Bedside and dispensary classes will be conducted in this institution.

MEDICAL COLLEGE

OF

Western Reserve University

CLEVELAND, OHIO.

This College was established in 1843, and has maintained annual sessions since that time.

The Course of Study is of eight months' duration annually, and requires four years for the Medical Degree. Theoretical and applied branches are arranged with reference to their bearing upon and preparation for each other, and effect of the whole course.

Instruction is given by lectures, recitations, quizzes, laboratory work, clinical demonstrations and practical dispensary and bedside work.

It is an endowed school, which enables its teachers to devote their entire time to teaching and original research work in the departments of Anatomy, Physiology, Histology, Bacteriology, Pathology, Pharmacology, the laboratory of Clinical Microscopy and Clinical Medicine and Surgery. Work is required of every student in the laboratories of these departments.

The clinical opportunities consist in the use of the material of Lakeside, Charity and St. Alexis Hospitals, the Maternity and Children's Home, Dispensary at Charity Hospital, and the Dispensary of the Western Reserve University and Lakeside Hospital throughout the year, and of the City Hospital to January 1st of each year. The student has access to all these institutions, and work in all of them is required.

There are opportunities for graduates to become Resident Physicians or Surgeons in some of the various hospitals. Of the class of twenty-six men graduating in 1903, seventeen received hospital appointments.

Courses taken in other Medical Colleges are credited to the extent they conform to the requirements of this College.

The requirements for admission to the first year are the completion of the Junior year in a recognized literary college.

The College year begins on the first of October and closes at the Commencement of the University, in June.

For Information, Catalogues, Etc., apply to the Dean or Registrar, College Buildings, Cor. Erie and St. Clair Streets, Cleveland, Ohio.

The Kansas City Medical College

(Established 1869)

Seventh and Washington Sts., KANSAS CITY, MISSOURI.

This college has been in continuous session for thirty-five yearly terms.

It has always been conducted by regular physicians of recognized ability along ethical lines.

It presents complete and well-graded lectures, carefully conducted quiz. classes and thoroughly modern laboratory work.

It offers abundant clinical work at the college, in St. Joseph's Hospital and in the public institutions of the city.

Its alumni are in successful practice throughout the West, and its diploma is widely known and highly prized.

CHOOSE A STAMMERING SCHOOL ADVISEDLY. Do not attend and do not recommend a school for the cure of stammering simply because it guarantees a cure. Stammering may be stopped by the substitution of something as bad or worse. The Reed School gives a steadily progressive and very effective course of instruction in NATURAL SPEECH. Booklet sent on application. (See other bottom lines.) **FRANK A. REED, 387 Hubbard Ave., Detroit, Mich.**

COLLEGE OF MEDICINE

MEDICAL DEPARTMENT OF

Syracuse University

HISTORY.—The famous Fairfield (N.Y.) Medical School was organized in 1812. In 1841 part of its faculty went to the Geneva Medical School and the other part to Albany. The fame of the Geneva School was soon well established; of the learning and eloquence of her lecturers the graduates always speak with enthusiasm. In 1872 the Geneva School became the Medical Department of Syracuse University. With advancement in Medical Education the Syracuse School has supplemented its lecture courses by recitations and practical work in laboratories and hospital wards, and has arranged all as a four years' graded curriculum—steadily keeping its standard of admission and scholarship in advance of the legal requirements of the State.

NEW BUILDING.—The new college building, with its attractive lecture rooms, numerous spacious and well equipped laboratories, a library recently supplemented by the gift from Dr. Stephen Smith, of New York, of his large private collection, an ample cold storage plant for the preservation of anatomical material (a separate building for animals used in the physiological and bacteriological laboratories), two large study rooms for men and women respectively, modern lavatories, individual students' lockers, photographic dark rooms and an electric plant for running ventilating fans, elevator, physiological laboratory apparatus and supplying incandescent lighting (especially important in the dissecting room), and arc lights for lantern, microscopic projection and photo-micrography, is one of the better appointed medical schools of the United States.

COLLEGE LIBRARY.—A rapidly growing medical library of more than 5500 bound volumes, and a large number of the more important current medical periodicals, is accessible to students of the college.

HOSPITALS AND DISPENSARY.—Two large general hospitals, a children's hospital, a large county orphan asylum, an extensive state institution for feeble-minded children and a city free dispensary, are at the service of the faculty and are all utilized for purposes of clinical instruction.

FACULTY.—In the faculty are enthusiastic, progressive teachers who strive to advance medical education by accepting as students only well prepared men and women, and insisting upon undergraduates continuing capable and doing steadily step by step the prescribed work of the curriculum. The work is so graded, however, that willing and industrious students of average ability experience little difficulty in meeting these demands.

UNIVERSITY ATHLETICS.—An excellent gymnasium, with tub, shower and plunge baths for both men and women; a first-class athletic field with a quarter-mile cinder track and a grand stand, are at the service of all university students. Fee, $6.00 annually.

COLLEGE FEES.—The annual fee is $125.00, paying in full for didactic lectures, recitations, the course in practical anatomy with necessary material, all the various laboratory courses with necessary material and the use of microscopes and other apparatus, the use of the library, bone loan collection, museums, reading rooms and lockers, clinical lectures and training in the hospitals and dispensary, all examinations and graduation. The annual matriculation or registration fee of $5.00 is the only other charge.

ROOMS AND BOARD.—Good rooms for one student can be had in Syracuse for from $6.00 upwards per month, and the same rooms occupied by two students for from $8.00 upwards per month. By clubbing together in clubs of from six to twelve students, good board can be had for $2.00 a week per student

The Medical College of Indiana

DEPARTMENT OF MEDICINE

UNIVERSITY OF INDIANAPOLIS

This College was organized in 1869, and opened its Thirty-fourth Session September 22, 1903. A four years' graded course. Sessions of seven months each. Well equipped laboratories in all departments. Practical laboratory work under special instructors in Anatomy, Physiology, Chemistry, Histology, Pathology and Bacteriology. Excellent Clinical advantages. Free Dispensary in College Building, at which over 15,000 cases are treated annually. Clinics at City Hospital, St. Vincent's Infirmary and Central Hospital for Insane. Bedside instruction; obstetric service at Maternity Hospital. Every opportunity is afforded for the study of general and special branches of Medicine and Surgery.

FACULTY:

Isaac C. Walker, M. D., Emeritus Professor of Diseases of the Mind and Nervous System.
J. L. Thompson, M. D., LL. D., Emeritus Professor of Diseases of the Eye and Ear.
Wm. B. Fletcher, M. D., Emeritus Professor of Diseases of the Nervous System and Physiology.

Alembert W. Brayton, M. S., M. D., Vice-Dean, Professor of Dermatology, Syphilology and Clinical Medicine.
Edward F. Hodges, A. M., M. D., Professor of Obstetrics.
Fraklin W. Hays, M.D. Professof of Dermatology and Clinical Medicine.
Frank A. Morrison, A. M., M. D., Professor of Physiology and Director of Physiological Laboratory.
Wm. N. Wishard, A. M., M. D., Professor of Genito-Urinary and Venereal Diseases.
Daniel A. Thompson, M. D., Professor of Diseases of the Eye.
James H. Taylor, A. M., M. D., Professor of Diseases of Children and Clinical Medicine.
Lehman H. Dunning, M. D., Professor of Diseases of Women.
John H. Oliver, M. D. (Treasurer), Professor of Surgery, Clinical and Othopedic Surgery.
William Flynn, A. M., M. D., Professor of Physical Diagnosis and Diseases of the Chest.
George J. Cook, M. D. (Secretary), Professor of Gastro-Intestinal and Rectal Surgery.
Theodore Potter, A. M., M. D., Professor of Principles of Medicine and Clinical Medicine.
Lewis C. Cline, M. D., Professor of Laryngology, Rhino'ogy and Otology.
Ernest C. Reyer, M. D., Professor of Diseases of the Mind and Nervous System.
William M. Wright, M. D., Professor of Surgical Anatomy, Minor and Clinical Surgery.
Frank B. Wynn, A.M., M.D., Professor of Pathology and Medical Diagnosis and Director of Pathological Laboratory.
John F. Geis, M. D., Professor of Chemistry, Toxicology and Forensic Medicine, and Director of Chemical Laboratory.
Edmund D. Clark, M.D., Professor of Surgical Pathology and Director of Histological Laboratory.
John W. Sluss, A. M., M. D., Professor of Anatomy.
C. Richard Shaefer, M. D., Professor of Materia Medica and Therapeutics.
Orange G. Pfaff, M. D., Clinical Professor of Diseases of Women.
Charles E. Ferguson, M. D., Professor of Bacteriology, Lecturer on Diseases of Women and Director of Bacteriological Laboratory.
John N. Hurty, Phar. D., M. D., Lecturer on Hygiene and State Medicine.
G. W. H. Kemper, M. D., Special Lecturer on the History of Medicine.
John S. Wright, B. S., Lecturer on Botany.
Norman E. Jobes, M. D., Lecturer on Osteology.
Alois B. Graham, A. M., M. D., Lecturer on Gastro-Intestinal and Rectal Surgery.
Roscoe H. Ritter, M. D., Lecturer on Embryology, Demonstrator of Pathology and Assistant to the Chair of Principles of Medicine and Clinical Medicine.
Frederick R. Charlton, M. D., Lecturer on Genito-Urinary and Venereal Diseases.
Harold Taylor, LL. B., Lecturer on Medical Jurisprudence.
Robert O. McAlexander, M.D., Lecturer on Materia Medica.
John G. Wishard, M. D., Clinical Lecturer on Genito-Urinary and Venereal Diseases.
John Q. Byram, D.D.S., Lecturer on Dental Surgery.
A. M. Cole, M. D., Lecturer on Diseases of Children.
A. C. Kimberlin, M. D., Lecturer on Clinical Medicine.
John J. Kyle, M. D., Lecturer on Laryngology, Rhinology and Otology, and Assistant to Chair of Surgical Pathology.
David Ross, M. D., Lecturer on Anatomy and Director of Anatomical Laboratory.
Edward A. Brown, M. D., Lecturer on Surgical Dressings and Assistant to the Chair of Surgery.
William T. S. Dodds, M. D., Lecturer and Demonstrator of Bacteriology.
F. E. Sommer, M. D., Lecturer on Anatomy and Assistant to Chair of Anatomy.
John D. Nichols, M. D., Demonstrator of Pathology
Francis O. Dorsey, M. D., Demonstrator of Pathology and Assistant to the Chair of Principles and Practice of Medicine.
Gustave A. Petersdorf, M.D., Demonstrator in Chemical Laboratory.
Charles E. Wright, M. D., Demonstrator of Anatomy.
Harry K. Langdon, M. D., Demonstrator of Bacteriology.
Walter D. Hoskins, M. D., Demonstrator of Histology.
E. S. Knox, M. D., Demonstrator of Anatomy.

NEW YORK POLYCLINIC

MEDICAL SCHOOL and HOSPITAL.

Chartered by the University of the State of New York. The Oldest Post-Graduate School in America.

Organized in 1881. Opened in 1882.

THE NEW YORK POLYCLINIC is a school for teaching graduates the most recent methods of diagnosis and treatment in every department of medicine. The clinical material is abundant, and the Hospital wards adjoin the lecture rooms. Since the fire of 1896 a new building has been erected and thoroughly equipped, and the institution is now prepared to offer better facilities than ever. Students may enter at any time.

The school maintains a dispensary in its own building, where in the presence of the matriculants from one hundred and fifty to two hundred patients are treated daily. The members will be brought into personal contact with the patients, where the clinical features of each case may be minutely and leisurely studied. The Hospital has eighty beds for surgical patients, and all the operations are done before the class, and opportunities given to witness the after-treatment.

Listerine

A Non-toxic, Non-irritant, Non-escharotic Antiseptic

Absolutely Safe, Agreeable and Convenient

Listerine is a well-proven antiseptic agent — an antizymotic — especially useful in the management of catarrhal conditions of the mucous membrane, adapted to internal use, and to make and maintain surgically clean — aseptic — all parts of the human body, whether by spray, injection, irrigation, atomization, inhalation, or simple local application.

Listerine is a swift and sure destroyer of infusorial life; it prevents the various fermentations, preserves animal tissues and inhibits the activity, growth and motion of low forms of vegetable life: hence Listerine may be relied upon to destroy the activity of the living particles which constitute contagion whenever brought into intimate contact therewith.

For diseases of the uric acid diathesis: Lambert's Lithiated Hydrangea

A remedy of acknowledged value in the treatment of all diseases of the urinary system and of especial utility in the train of evil effects arising from a uric acid diathesis.

Descriptive literature may be had upon application to the Manufacturers—

LAMBERT PHARMACAL CO., St. Louis, U. S. A.

Be assured of genuine Listerine by purchasing an original package.

THE COLLEGE OF PHYSICIANS AND SURGEONS

. . . OF . . .

HAMLINE UNIVERSITY

707-709-711 FIFTH ST., S. **MINNEAPOLIS.** OPPOSITE CITY HOSPITAL.

The oldest medical school in the Northwest.

The first school in the Northwest to require a high-school education for entrance and the first to announce the requirement of a four-year course of study for the degree;

The first school in theWest to abolish all allowance of advanced standing in the medical course to graduates from academic and all other courses of study, requiring absolutely four full years of actual study in the medical school.

The longest annual session of any school in the Northwest.

The faculty is composed of representative men in Minneapolis and St. Paul. Full clinical facilities in the hospitals of both cities. Over twenty hospital appointments open to graduates. Curriculum and laboratory equipment complete in all departments.

Four hospitals with over 500 beds within five minutes' walk of the college building.

Boekel's Nebulizer

WITH PATENTED

SPRAY TUBE

THE points of advantage of our Nebulizer are:

SIMPLICITY IN DESIGN,
EASE OF MANIPULATION,

and the absence of

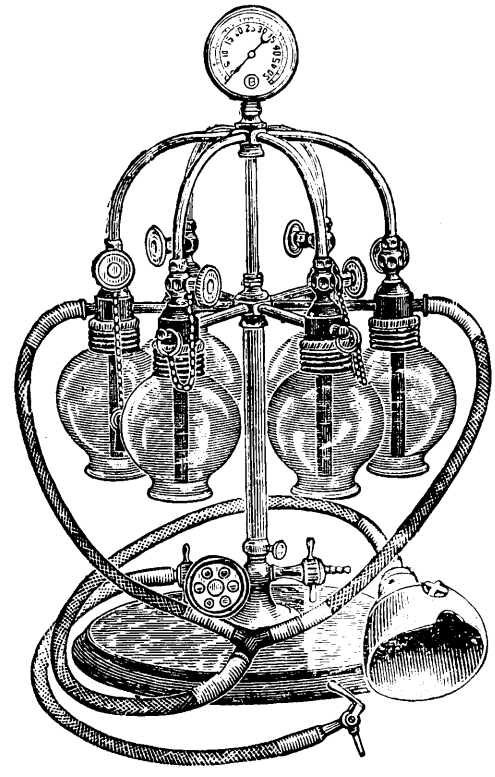
COMPLICATED PARTS,

which permit the

ACCUMULATION OF DIRT

or oily deposits, and the absolute

ISOLATION OF ONE CHAMBER FROM THE OTHER.



The superiority of our Spray Tube is beyond dispute, since it has been found by repeated tests to deliver more than five times the amount of the most perfect vapor with a given pressure of air as compared to any Spray Tube that has been as yet manufactured. The value of this alone is at once recognized, since it promotes a greater economy in the consumption of air.

Another very essential feature is the mouthpiece; the simplicity of construction permitting an instant attachment and detachment of the rubber mask, enabling each patient to have one for his individual use at small expense, which removes a great objection of the Nebulizer from a hygienic standpoint.

CRANFORD SANITARIUM.
A quiet, refined home for the treatment of Nervous Diseases and Diseases of Women.
Dr. Octavia L. Krum, Physician in Charge, POTTSTOWN, PA. (See page 1609)

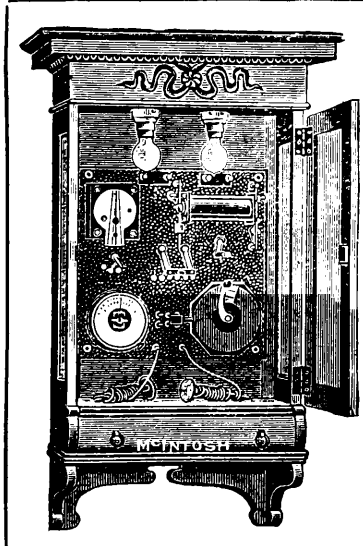
Electro-Therapeutical Apparatus

1879 1904

The McIntosh Battery and Optical Co.

Have been manufacturing Electro-Therapeutical Apparatus for twenty-five years. The name McINTOSH stands for the best in this line of goods, because the highest standard in material and workmanship has been consistently maintained.

We manufacture the Toepler-Holtz Type of Static Machine. Our latest pattern is handsome in appearance and embodies all the latest improvements for giving an efficient current for Therapeutic treatment and X-Ray Diagnosis.



No. 6 Plate, in Wall Cabinet

The No. 6 PLATE is undoubtedly the most practical arrangement of accessories for administering the Galvanic and Faradic Currents. It consists of a Faradic Coil, Graphite Rheostat, Milliamperemeter, Automatic Rheotome, Pole Changer Switch and Binding Posts.

It is handsome in appearance and can be used on the direct lighting current or on a battery of Cells.

We are the Sole and Exclusive Owners of this Design of Switch Board.

The 18-Cell Combined Galvanic and Faradic Fluid Battery, although one of the first styles of Medical Batteries to be used by the profession, has steadily increased in popularity. It is absolutely reliable, making it indispensable for emergencies.

Send for description and price list. Batteries, Electrodes, Static Machines.

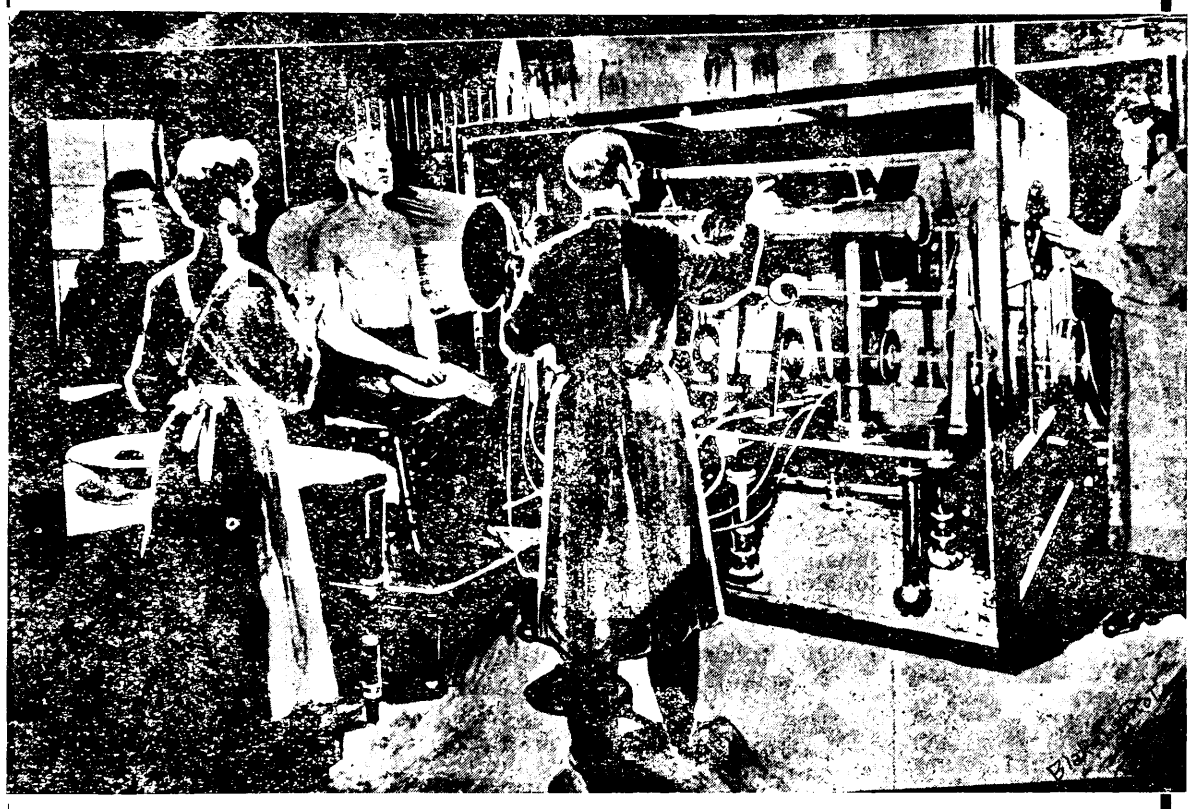
Practice Limited to the Treatment of CHRONIC MALIGNANT and NERVOUS DISEASES by Electric Currents, Radium, X-Ray, Ultra-Violet-Ray, Light, Heat, Ozone and Mechanical Vibration. (See Page 1675)

The Crôtte - Raddé Medical Institutes



THIS Static Machine is used for the transmission or transfusion of medicinal or antiseptic substances directly to the seat of disease, successfully treating tuberculosis and kindred diseases of a septic nature, and all chronic and microbic diseases.

Institutes employing this method have, for several years, been established in France and Belgium, treating with astonishing results the above diseases, as shown by recent statistics and as exhibited in various Medical Congresses at Paris, London and Berlin.

Branch Institutes are now being established in this country. Those in successful operation September 1st, 1903, are as follows:

The Crôtte-Raddé Medical Institute
At 810 Van Ness Ave., SAN FRANCISCO, CALIFORNIA

The Crôtte-Raddé Medical Institute
At 100 W. Colfax Ave., DENVER, COLORADO

The Crôtte-Raddé Medical Institute
At 612 N. Tejon St., COLORADO SPRINGS, COLORADO
912 So. Hill Street, LOS ANGELES, CALIFORNIA

Institutes will be in operation in New York City, San Antonio, Texas, El Paso, Texas, and Los Angeles, California, by March 1st, 1904, and will be established in all the prominent cities in the country as rapidly as possible. Patients referred to any of these Institutes by Physicians, will be regarded as their patients and as under their direct supervision and control.

THE COLUMBUS MEDICAL JOURNAL is owned and controlled by a company composed exclusively of members of the medical profession in active practice. It is published wholly in the interest of the medical profession, and seeks to represent its highest interests.

THE JOURNAL is the Official Organ of the Columbus Academy of Medicine and publishes regularly official reports of the proceedings of that organization. With the two medical colleges and several well equipped hospitals, Columbus is recognized as an important medical center, and furnishes much that is of interest to the general profession. THE JOURNAL seeks to publish the best papers presented not only to the local society but those presented to other societies of the state, together with the discussions and the reports of clinical cases. All advertising matter is excluded from the reading pages, and none but ethical advertisements are accepted.

Guaranteed monthly issue of 1,500 to 2,500, circulation constantly increasing. Sample copies of THE JOURNAL sent on request to any member of the profession. Trial subscriptions solicited.

Original articles, scientific and clinical memoranda, correspondence and news items are cordially solicited from the profession. All communications should be addressed to the

THE AGNEW SANITARIUM,

Cor. Fifth and Beech Sts.,
Tel. Red 171. SAN DIEGO, CAL.

Our Sanitarium is named after the late World-Renowned Surgeon, Dr. Agnew, of Philadelphia

THIS Institution is thorougly modern in construction and equipment, conducted as a Medical and Surgical Sanitarium, with complete maternity and rest-cure departments, and is open to all reputable physicians. Private rooms for all patients. Has the best and latest improved facilities for electrical treatment. It has also the latest improved facilities and best known methods for the administration of all forms of internal and external water treatments. Our massage parlors are especially well equipped.

This Institution also has an incorporated Training School for Nurses, the entire faculty being comprised of leading physicians.

THE FOLLOWING ARE A FEW TESTIMONIALS FROM EMINENT NON-RESIDENT PHYSICIANS AND SURGEONS WHO HAVE VISITED AND OPERATED IN THIS SANITARIUM:

The eminent American Surgeon, DR. J. B. MURPHY, of Chicago, during his recent visit to this Sanitarium, said: "We have nothing finer or more thorough up to date in Chicago. Your rooms are all neat, cheerful and inviting, and your operating and sterilizing rooms are as fine as can be found anywhere. With such superior facilities, and in an atmosphere that is free from the infection we have to contend with in large cities, you are armed with all the advantages possible for successful surgery,"

The late DR. FENGER, one of America's greatest Surgeons, said: I was surprised at finding in San Diego a Sanitarium so thoroughly modern in all its appointments, and so neat and home-like in its interior arrangements. Your rooms are sunny, well ventilated and restful to the patient; and your operating room is one of the finest and most complete I have ever operated in."

"I am really surprised to find in a place with the population of San Diego, so complete and up to date a Sanitarium and Hospital as the one conducted here by Dr. Gochenauer, and which I have inspected today. I doubt if a more complete one can be found anywhere outside of the largest cities. I have had occasion as a surgeon in the French navy, to visit many hospitals and sanitariums in my cruise around the world. It is part of my duty to do so, and to report to my government anything of value to the medical science which I may discover. I can unhesitatingly say that this one surpasses all that I have seen outside of the largest cities, except as to size. I know very few Hospitals and Sanitariums anywhere that can equal this one. I shall report with pleasure to my government the observations I have made here. DR. DENIS,
Surgeon of the First Class of the French Navy, on the French Battleship "Protet."

DR. H. G. BRAINARD, Dean of the Faculty and Professor of the Mind and Nervous System, University California College of Medicine, says: "I was very highly pleased with your Sanitarium, it is first class in all its appointments, home-like and attractive. I shall take great pleasure in recommending my patients who go to San Diego to patronize your institution."

As to Our Climate, We Quote from some Well-known People Who Have Visited Our City.

PROFESSOR AGASSIZ says of San Diego: "This is one of the favored spots of the earth, and the people will come to you from all quarters to live in your genial climate, a climate that has no equal."

"One who has ever breathed this atmosphere would want to live here always."—EX-PRES. HARRISON.

UNITED STATES SENATOR THURSTON, of Nebraska: "I have visited San Diego several times and I always said, in public and private, that it is the most delightful winter resort in the world. In fact at any time of the year it is the most delightful resort I know of. I would ask nothing better than to go to San Diego and sit down and spend the balance of my days there." Washington, D. C., August 27, 1900.

ST. FRANCIS HOSPITAL

COLORADO SPRINGS, COLORADO

ESTABLISHED 1887

Conducted by the Sisters of St. Francis

Located on East Pike's Peak avenue and Prospect, on a high elevation overlooking the city, with a splendid panoramic view of Pike's Peak and the entire mountain range on the west. A perfect climate and abundance of pure air and water combine to make the : : : : : :

ST. FRANCIS HOSPITAL

one of the most notable institutions of its kind of this far famed Health Resort at the foot of the Rockies. The equipments and appliances are of the most modern in every detail. The Medical and Surgical Staff is composed of the leading physicians and surgeons, each of whom is a specialist in his line. Patients may, however, select their own physicians if desired. A corps of trained nurses in each department pay special attention to the needs of guests. . . .

VISIT THE REED SCHOOL FOR THE CURE OF STAMMERING. This is the only school of the kind in the country which welcomes visitors at any time during school hours. Positively nothing to hide. No secrets; no "method" of which we are ashamed. When you come to Detroit be sure and visit the Reed School. You may be asked your advice as to treatment for the cure of stammering some day. SEE WHAT WE OFFER. Booklet sent on application by **FRANK A. REED, 387 Hubbard Ave., Detroit, Mich.** (See other bottom lines.)

"RIFLE PRACTICE IN THERAPEUTICS."

DIRECT ACTION OF DRUGS

THE ONLY JOURNAL WHICH IS DEVOTED TO
DIRECT THERAPEUTICS
IS THE

Chicago Medical Times

Edited by DR. FINLEY ELLINGWOOD, author of "Ellingwood's Materia Medica and Therapeutics," which is now attracting the attention of physicians of all schools, all over the world, because of its systematic treatment of the direct action of the newest remedies.

Send **30 Cents** in stamps at once and get THE TIMES four months on trial. You will be more than pleased with it.

Ellingwood's Therapeutics

has, at a single bound, taken an advanced position among the most popular works on Therapeutics published to-day from any author. It is received with the *most extravagant enthusiasm.*

IT IS LIKE NO OTHER BOOK.

You have noticed the high commendations of it in "The Alkaloidal Clinic." It is most highly commended by such men as Hobart A. Hare, Harold N. Moyer, George F. Butler, Wm. F. Waugh, Frederick W. Mann, and many others.

IT IS TRULY A GREAT WORK. Beside the usual remedies, it treats of nearly one hundred botanic remedies not mentioned in other works.

Send for circulars, sample pages and full information.

Price, cloth $5.00; sheep $6.00.

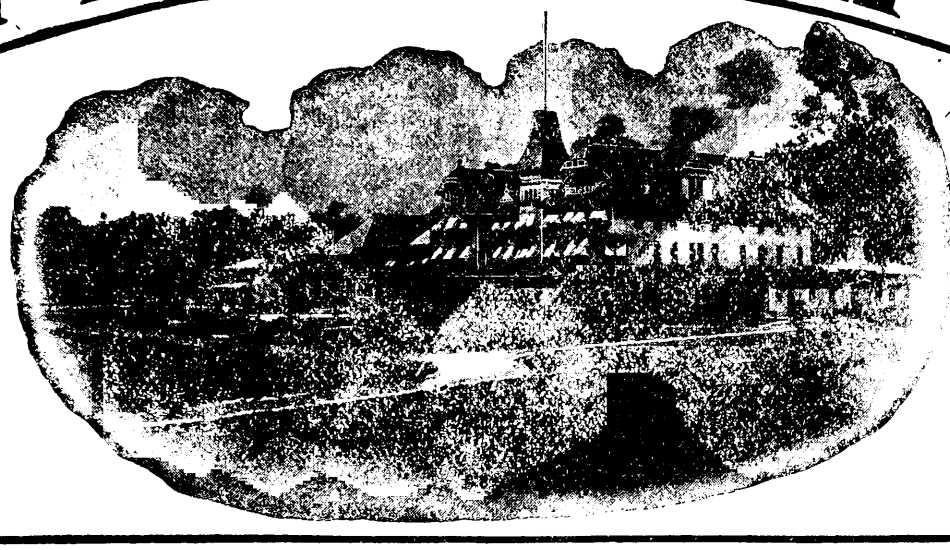
MUDLAVIA



MOOR BATHS

DOCTOR

Prescribe Mudlavia Moor-Baths to your patients. Your prescription will be filled here exactly as your order reads. The physicians of our medical staff work along ethical lines, co-operate with you and give your patients their attention as your representatives. Your patients remain your patients. The results are invariably beneficial in cases of Rheumatism, Gout and all diseases of the Liver, Stomach, Bladder, Kidneys, Blood and Nerves and the credit belongs to you. The combination treatment consists of *Mudlavia Moor-Mud baths, Lithia-Water drinking and bathing and Sulpho-Saline Hydrotherapy.* Hundreds of prominent physicians send their patients here, and certify to the benefits achieved. Your personal, professional investigation and visit is solicited. Write for beautifully illustrated 128-page descriptive magazine, and learn all details about an institution and a treatment which performs wonders when other means have failed: Address

THE NATIONAL MEDICAL UNIVERSITY

The following **advantageous** features distinguish this Institution from all others:

1 Separate Day and **Evening** Courses.

2 In Session the **entire** year. Four quarters: beginning with January, April, July and October.

3 The work of each quarter is **completed** by a final Examination.

4 All lectures **repeated** every quarter or every second quarter, so that one does not have to wait **a year** before a given subject is taught again.

5 Students may therefore enter at the beginning of **any quarter**, or may attend one quarter, drop out the next and re-enter the third without disadvantages.

6 For the same reason Students may **change** at the beginning of any quarter from attendance during the Evening to attendance during the Day, or vice versa.

7 A **Systematized** Medical Curriculum, so that every subject in medicine must be covered before graduation is possible.

8 Attendance upon twelve (12) quarters during the day, or sixteen (16) quarters during the evening, extending over a period of four years required; five years after July 1, 1902. Fifth year hospital work.

9 Students at graduation are **prepared** to **pass** any State Board Examination.

10 This **University** embraces a School of **Medicine,** a School of **Dentistry,** a School of **Pharmacy,** a School of **Midwifery,** a School of **Osteopathy.**

A Diploma is given for each to those complying with all the requirements.

11 **All recognized** Schools or Systems of Practice are taught without prejudice or partiality by able representatives of each, thus giving the most liberal and practical medical education possible.

12 About one hundred Professors and Instructors, many of whom have no **superiors** and few equals.

13 An emergency, a general and a lying-in **Hospital** adjoining and in immediate connection, giving the Student an opportunity to attend emergency cases, to receive bedside instruction, to attend labor cases and to assist at operations.

14 Each Student is given the **opportunity** and required to attend **twelve** cases of **Obstetrics** before graduation.

15 Located in the best **clinical** field in Chicago.

16 Students of **both** sexes admitted.

17 **Low Fees.**

18 **Self**-supporting Students' **Employment** Association.

19 A **free** Preparatory Course.

20 Ideal Question System.

The Denver Sanitarium

for Consumptives and Other Invalids

VILLA PARK P. O., DENVER, COLO.

THE Sanitarium is located in P. T. Barnum's addition to Denver. This suburb is among the foothills, and is the cleanest, prettiest and healthiest, and also the quietest part of Denver. It is situated southwest of the city, about two miles away, and commands a fine view of the city by day and night. It has the hills and mountains for a background. Our prevailing winds being from the south and west, the air comes pure and clean from the mountains, the smoke and the dirt of the city being blown away from us rather than toward us. The soil being heavy clay, the air is remarkably free from dust and sand, even when a strong wind blows. A well stocked farm and extensive orchard are special features.

The Sanitarium is well equipped with finest apparatus for the treatment of disease by electricity, X-ray, violet and Finsen ray, and other methods. Also for the giving of baths and massage. Special attention given by resident physicians to each case. A study is made of diet.

Special departments for nervous and mental cases; also for confinement cases, and those simply wishing to recuperate. Sanitarium one block from Barnum car line. Private ambulance. Phone 3700.

There is nothing "just as good" as Liquid Granite for floors. Write us for free samples of finished woods and full information.

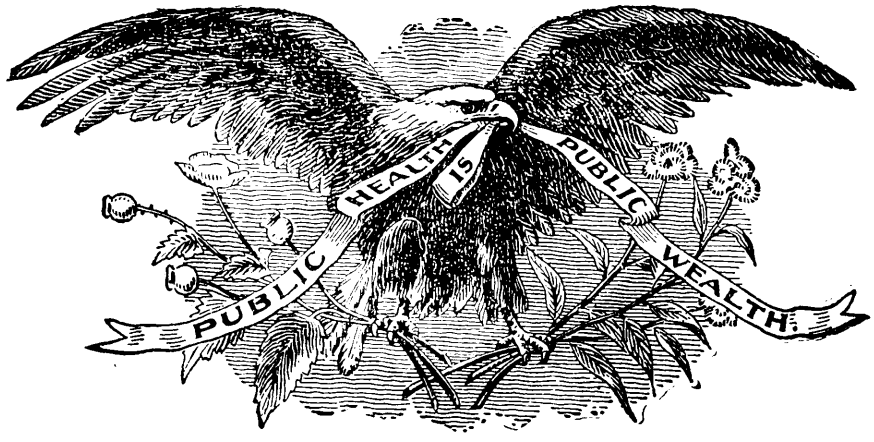
GIVE YOUR CHILD A FAIR CHANCE! Does he or she find it difficult or impossible to "keep up" at the public school? It is our business to help such children. We have helped many. The Reed School for Nervous and Backward Children is recommended by Dr. David Inglis, Prof. Mental and Nervous Diseases, Detroit College of Medicine. Catalogue sent on application. (See other bottom lines.) **Mr. and Mrs. Reed, 387 Hubbard Ave., Detroit, Mich.**

THE SANITARIAN



A MONTHLY MAGAZINE,

Established in 1873.

"THE SANITARIAN for June, 1892, contains a life-sketch of its venerable and distinguished editor, Dr. A. N. Bell, and several contributions upon 'The triumphs of preventive medicine,' in the interest of which Dr. Bell has labored so long and so successfully. * * * No one has been so long, so patient and so persistent in awakening public attention to an interest in this cause. No one has filled so many positions demanding skill in practical work. No one has been more successful in practical work under great difficulties. The writer of the article is Dr. Stephen Smith, the eminent surgeon and author."—*Tennessee State Board of Health Bulletin.*

Based at the outset upon medical knowledge and sanitary service, over an extensive field of observation in various climates in different quarters of the world, large experience in dealing with epidemic diseases, and practical sanitation for the maintenance of health under the most trying circumstances:

"The Sanitarian is"—

AS OTHERS SEE IT—

"The American authority for everything appertaining to the healthful condition of the people at large. The contributions are from medical men whose writings are accepted as authority," (*Virginia Chronicle*); "The best sanitary publication in America," (*Mississippi Valley Medical Monthly*); "Easily maintains its superiority over all similar publications," (*Medical World*); "Has accomplished more good than all of the other sanitary papers put together," (*Hydraulic and Sanitary Plumber*); "The value of a good sanitary publication can hardly be estimated. The superior of THE SANITARIAN we have never seen," (*The Free Methodist*); "The editor, Dr. A. N. Bell, is well known to the mercantile community for his co-operation with the merchants in quarantine reform, and to his profession as a leader in sanitary science," (*N. Y. Journal of Commerce*).

"THE SANITARIAN has been the exponent of the most progressive science of hygiene for more than twenty years," (*The Living Church*).

Two volumes yearly. The volumes begin January and July; subscription at any time.

TERMS: $4.00 a year, in advance; 35 cents a number. SAMPLE COPIES, 20 cents—ten two-cent Postage Stamps.

☞All correspondence and exchanges with THE SANITARIAN, and all publications for review, should be addressed to the Editor,

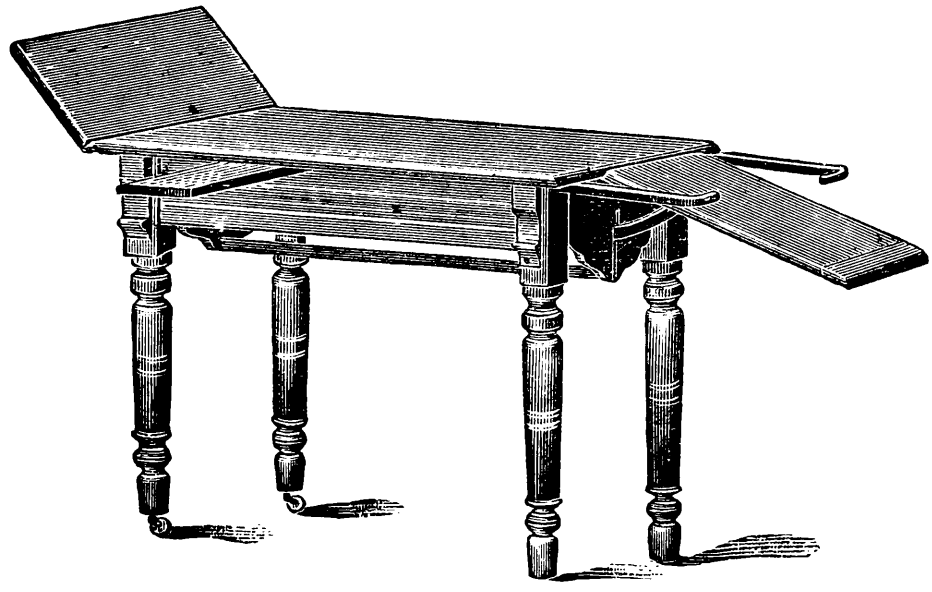
SPECIALTIES: The Pomeroy Frame Truss. The "Master" Elastic Stocking. Supporting Belts "Made to Fit." Celluloid Jackets.

THE

Detroit Surgical Table

NEAT, COMPACT AND DURABLE.



PRICE, $12.50 NET.

Legs of this table are "Knocked Down." Head and lower extension pieces have been fitted and are securely packed with legs in the bottom of table, hence it costs you but little for freight and no danger of it being damaged during transit.

THIS OFFICE TABLE is made of highly polished oak, and is equally serviceable for surgical and gynæcological work. It meets all the requirements of an office table or office chair.

The entire length is 70 inches; body of the table when head and foot extensions are lowered, 38 inches. Both ends can be raised or lowered, independently, to any desired angle. Width of table, 24 inches. Is provided with an extension, sliding out from either side of the table, convenient for holding the arm, or for instruments during an operation. Has two white enameled stirrups that can be adjusted to three different lengths, and concealed when not in use. There are casters under the head so that the table can be moved, with the patient on it, to place it with reference to the light.

NO CHARGE FOR PACKING OR CRATING.

Epitome of Nature—Man Epitome of Malt Virtues—Maltzyme

A highly refined, clear and mobile concentration of the nutritive and digestive elements of the finest Barley Malt.

MALTZYME actively represents, bulk for bulk, more malt than any malt product on the market.

MALTZYME is exceedingly rich in malt enzymes. It is therefore a powerful cereal and starch digester.

MALTZYME contains the proper amount of proteid carbohydrates, phosphates, etc. It is therefore an ideal food. Pre-Digested.

As a cereal and tissue builder it has no equal. The logical advantages of MALTZYME are: mobility, transparency, smallness of dose (two teaspoonfuls), strong digestive power, uniformity, ease of administration, and adaptability as a vehicle in which to administer remedial agents.

MALTZYME (plain)
MALTZYME with Cascara Sagrada
MALTZYME with Hypophosphites
MALTZYME with Phos. Iron, Quinia and Strychnia
MALTZYME Ferrated
MALTSANTA (Maltzyme with Yerba Santa) Tablets

EVERY PHYSICIAN, EVERY NURSE, EVERYBODY SHOULD KNOW THAT

BACTICIDE

TRADE MARK

(REGISTERED.)

Is a Practical, Reliable and Efficient

GERMICIDE OR DISINFECTANT.

A Thorough and Instantaneous Deodorizer, Odorless, Colorless, Stainless.

BACTICIDE is the product of a well-known chemist and bacteriologist, compounded upon facts laid down by such world-renowned authorities as Doctor Koch of Berlin, Germany; Doctors Herman M. Biggs and Wm. H. Park of New York City; Doctor Herbert U. Williams of Buffalo, N. Y.; and Dr. George M. Sternberg, Chief Surgeon United States Army.

Bacticide, the most remarkable Disinfectant of the Twentieth Century opens an new era for the Medical Profession in the treatment of contagious diseases and the destruction of disease germs.

The fearful epidemic of Typhoid fever at Butler, Penna., during the fall and winter of 1903-4, which startled the whole country and baffled many leading lights of the Medical Profession of Pennsylvania and other eastern states, was abated without doubt through the timely application and use of **Bacticide**

The following are extracts from communications of many of our recommendations which speak conclusively of the merits of Bacticide:

BUTLER BOARD OF HEALTH,

Butler, Pa., Jan. 27, 1904.

Van Allen & Mullineaux,

Dear Sirs:—Sickness in our Board caused oversight in acknowledging receipt of Bacticide. Your Bacticide disinfectant was used and found very satisfactory. You will please accept our thanks.

Yours respectfully,
B. B. McQuistion, Health Officer.

Butler, Pa., Jan. 28, 1904.

Messrs. Van Allen & Mullineaux,

Gentlemen: — We thank you very much for sending us the Bacticide. Could have used more of it before this, but have been using other Disinfectant with which we have been liberally supplied. However, you may send us another case of Bacticide with bill for same. Have given it a fair trial and the nurses all agree thatBacticide is all you claim it to be and like it better than any other thing they have used.

Trusting you will understand our delay in acknowledgment of your favor, we remain

Respectfully yours,
H. & N. Wagner.
117 S. McKean Street.

COLUMBUS BOARD OF HEALTH.

Columbus, O., Feb. 22, 1904.

Messrs. Van Allen & Mullineaux,

Gentlemen—Bacticide was subjected to a test by our Bacteriologist with the following results:

A ten (10) per cent solution was placed in test tube culture media and growth of typhoid bacilli. All growth was prohibited.

Very respectfully,
(Signed) Dr. McKendall Smith,Health Officer.

The Department Records of the New York City Board of Health contain the following Bacteriological Report on Bacticide:

DEPARTMENT OF HEALTH,

City of New York, Nov. 15, 1899.

Dr. Herman M. Biggs,
Pathologist and Dircctor.

Sir:—I have the honor to submit a report on the value of Tillinghast's Disinfectant (now "Bacticide") as determined by placing a loopful of bouillon culture of typhoid bacillus in solution of different percentages of the Disinfectant. The tests were carried out by Dr. Guenard under my supervision.

TYPHOID BACILLUS IN TILLINGHAST'S DISINFECTANT (NOW "BACTICIDE")

SUMMARY.

The typhoid fever bacillus placed in solution of Tillinghast's Disinfectant (now "Bacticide") was killed by a 1 per cent solution in ten minutes, a five per cent solution in three minutes and a ten per cent solution in two minutes.

Respectfully,
Wm. H. Park, Ass't Director Research Lab'y

Bacticide is Especially Adapted for use in Hospitals, Sanitariums and Sick Rooms.

Chemical and Bacteriological tests are invited. Samples for analysis will be furnished on application. Address all communications to our Chemical Laboratories, New Rochelle, N. Y.

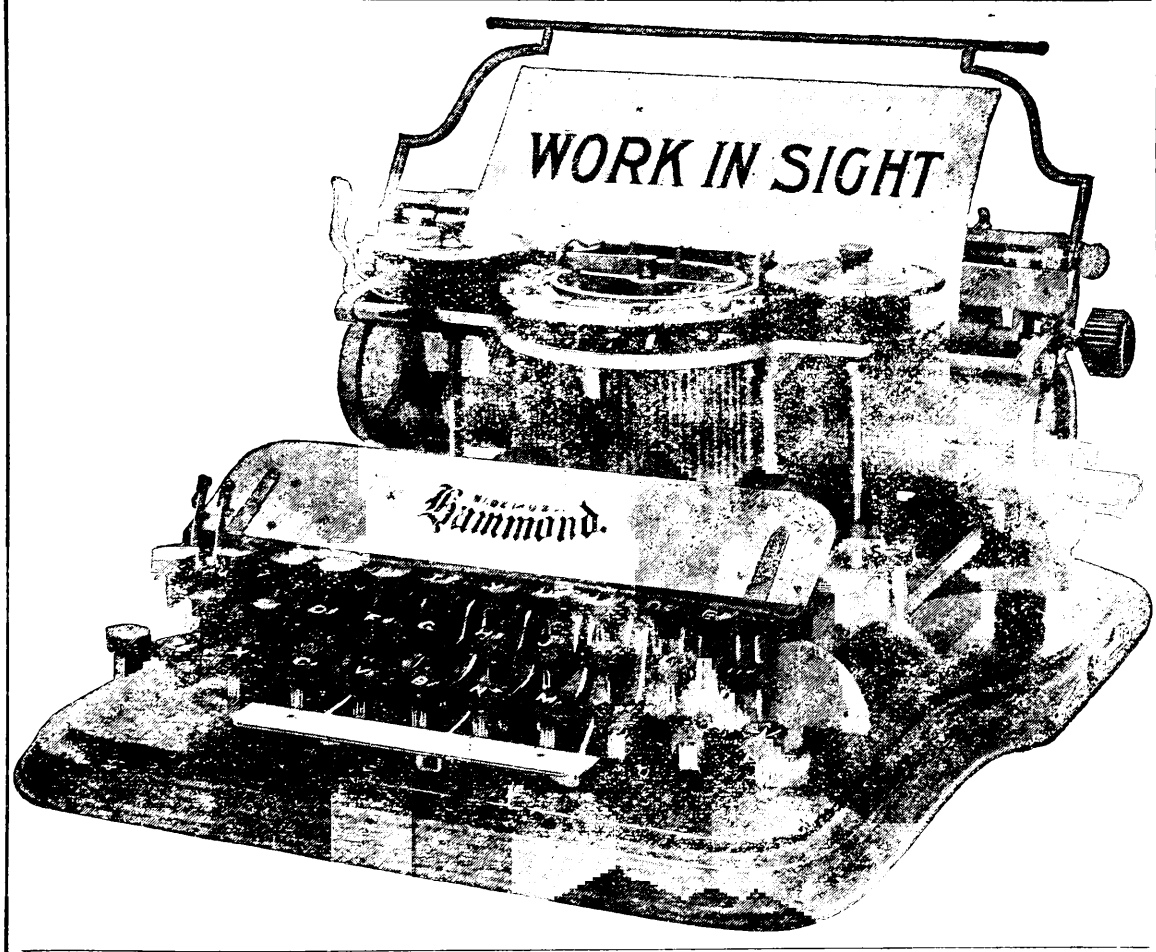
MAKE YOUR WORK LIGHT!

The comfort of typewriting is never appreciated until you try a No. 2 "New Manifolding"

HAMMOND TYPEWRITER.



IT IS EASY and elastic to the touch, perfect and permanent in alignment, speedy enough to write over 200 words a minute and gives as clear and uniform an impression as if printed. Its durability insures satisfaction and freedom from costs of repair. Its portability recommends it for traveling purposes. But its chief point of excellence is the beauty of its work to which thousands of users testify.

Branch Offices in principal cities. Representatives Everywhere.

WHAT RESORT?

WHEN YOU DESIRE INFORMATION ON ANY PARTICULAR HEALTH RESORT! WHEN YOU HAVE A PATIENT THAT WANTS A HEALTH RESORT AND YOU CAN'T DECIDE ON THE ONE BEST SUITED TO HIS CASE:

WRITE

THE CHICAGO CLINIC AND PURE WATER JOURNAL

(INFORMATION DEPARTMENT.)

40 Dearborn Street, Chicago, Illinois.

THE TRUTH is what you want and you cannot get it from the advertising matter of many of the resorts. If you will send an Inquiry on any American Resort or a Case History for the selection of a resort, this journal will give you UNBIASED information, gathered by medical men, for medical men, as follows:

(1) The location of the resort with railway facilities and the rates and time schedules. (If inaccessible to the sick we say so.)

(2) Climatic conditions, average temperature, altitude and character of the soil.

(3) Hotels, with rates, actual character of the service, conveniences, etc. (If the accomodations are not suited to your patients we tell you why.)

(4) Sanitaria, with their rates, accomodations, and, as far as possible, the professional standing of physicians in charge. (This information is given in confidence and may save your patients from the hands of quacks and charlatans.)

(5) Mineral springs (if any) with analysis of the waters and interpretation of such analyses, with therapeutic claims and the names of the physicians making such claims. (This is a matter of especial study to us and we feel that we can guide you safely in this matter so valuable in therapy and yet so abused by advertising fakirs.)

(6) Facilities for thermal baths and other forms of hydro-therapy.

(7) Full information regarding amusements.

There are many Resorts in the United States NATURALLY ENDOWED WITH GREAT THERAPEUTIC POWERS BUT UNSUITED TO THE NEEDS OF THE SICK. You do not learn the facts unless you go to the resort to investigate. We have DONE THE INVESTIGATING.

It is found that this BUREAU OF INFORMATION has made more popular than ever this POPULAR DOCTOR'S MONTHLY JOURNAL: THE JOURNAL THAT IS KNOWN AS "THE JOURNAL THAT'S READ." We will gladly send you this excellent journal for three months' trial on receipt of 10 cents in stamps.

INFORMATION ON RESORTS IS SENT ENTIRELY WITHOUT COST.

THE CHICAGO COLLEGE

OF

X-Ray and Electro Therapeutics

IS NOW RE-ORGANIZED AS A POST GRADUATE DEPARTMENT OF RUSKIN UNIVERSITY.

Its president is widely known as a pioneer in Electro Therapy and X-Ray treatment. The faculty consists of leading specialists of Chicago, representing several schools of medicine. Graduate physicians who complete the full scientific and clinical courses receive the degree of Doctor of Electro Therapeutics. Special electro therapeutic courses are given by members of the faculty on their branches, such as Mental and Nervous Diseases, Genito-Urinary, Nose and Throat, etc. Short courses are also given by special arrangement.

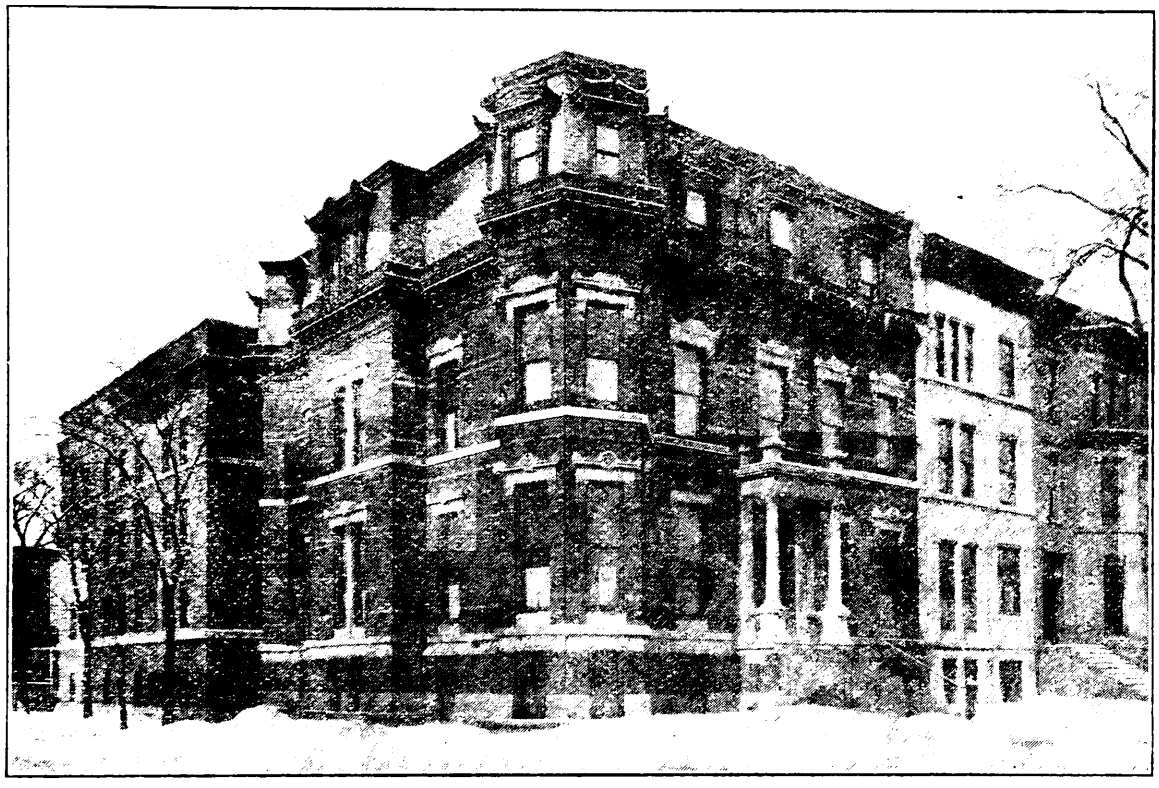
THE SCHOOL FOR NURSES

OF THE PRESBYTERIAN HOSPITAL

M. HELENA McMILLAN, B. A.
PRINCIPAL.

277 Ashland Boulevard, CHICAGO, ILLINOIS.



THIS SCHOOL has been organized within the last few months. **Its object is to provide Nursing of the highest order** for the patients of the Presbyterian Hospital, and, in addition, to offer to young women, of superior ability, an opportunity to prepare themselves for nurses under educational conditions similar to those adopted in other schools.

The School is affiliated with the Rush Medical College, the members of that institution giving instruction in the different branches of medicine, in the class rooms of the college. Teachers and supervisors in Practical Nursing, Dietetics, Massage and other subjects have been chosen from different parts of the country, and every effort made to have the instruction of the highest order.

The Home is pleasantly situated, several blocks from the Hospital and is provided with comfortable bed rooms, sitting rooms, study, etc.

Information may be obtained from

M. HELENA McMILLAN, Principal, 277 ASHLAND BOULEVARD

OR AT THE PRESBYTERIAN HOSPITAL.

ERNEST A. HAMILL, President,
Com. Exchange National Bank.

EDGAR A. HILL, Treasurer,

MAKING A LIVING

at the Practice of Medicine

• • •

ALL things considered, the most useful publication for doctors in all America is

THE HEALTHY HOME QUARTERLY

It does what no other medical periodical, and no chair in any medical college, attempts; namely, it helps the doctor to get patients, to keep them after he gets them, and to get pay for the service he renders them. In other words, it pays attention to the business side of the doctor's work.

That it has "met a long-felt want" is proved by the fact that, starting less than three years ago, it now reaches more New England doctors than any other periodical.

On application, it will be sent to any doctor for one year on approval. If not worth the money, don't pay for it.

One dollar a year.

OLDEST JOURNAL IN THE WEST.

THE KANSAS CITY MEDICAL INDEX-LANCET

Edited by JOHN PUNTON, M. D., Curator and Professor of Nervous and Mental Diseases, University Medical College.

Office, 532 Altman Building.

O. L. McKILLIP, M. D., Business Manager.

A Western Medical Journal for Western Medical Men.

THE MEDICAL INDEX-LANCET is, as is well known, a Scientific, Progressive and strictly Ethical Medical Journal, containing articles on subjects that are of benefit more especially to the general practitioner. Its contributors represent members of the profession in general and special practice, who are also recognized in their respective departments of Medicine and Surgery as possessing distinguished skill and ability. Its circulation is confined more particularly to Missouri, Kansas and the Middle Western States. A Special feature of the Journal is the Department of News Items and Society Notes of happenings in its territory. Its subscription list is composed of bona fide subscribers, and hence the Journal is valuable to advertisers. Address all communications to . . .

THE TEXAS MEDICAL NEWS

THE CONSOLIDATED JOURNAL

The Best Advertising Medium

IN

This Rich Southern Territory.

THE TEXAS MEDICAL NEWS has been consolidated with three other leading medical journals of the State, namely, "The Southwestern Medical and Surgical Reporter," of Fort Worth; "The Texas Medical Practitioner," of Dallas; and the "Southwestern Medical Record," of Houston.

This consolidated journal now has the largest and best distributed subscription patronage of any journal in Texas. It is 32 pages larger than any medical publication in this territory, 116 pages per issue, and has reduced the number of advertising mediums in Texas about one half.

The News is the official organ of a large number of the leading medical societies, and is represented at all of the medical meetings held in the State. It has associate editors in all the leading Texas cities. It is in no sense "a trade journal;" and is popular with the profession.

Texas is larger than all of the New England States, and had a population ten years ago of more than three million people, with more than five thousand physicians, and while "the News does not claim the earth," still it does claim to have "the best advertising medium on earth," in this rich southern territory.

Subscription Price, $1.00 per Year.

We invite the advertiser to give the News a critical inspection and a careful comparison with the other advertising mediums in this territory, and write us for sample copy, advertising rates and additional information. Address,

The Texas Medical News Publishing Co.,

AUSTIN, TEXAS.

THE ALBANY MEDICAL ANNALS is published in Albany as the official organ of the Alumni Association of the Albany Medical College. It has the especial support of the Graduates, Faculty and Students of the College, is an exponent of all that is best in the past and present of the College, and is replete with the best work in medical science.

The ANNALS is divided into the following departments:

1. **Original Papers.**
2. **Reports of Clinical and Pathological Cases.**
3. **Editorials.**
4. **Medical News and Items Referring to the Alumni of the College.**
5. **State Medicine and Medical Legislation.**
6. **Critical Reviews of Scientific Progress.**
7. **Current Medical Literature.**
8. **Book Reviews.**
9. **Practical Therapeutics.**

Each of these departments is carefully edited by specialists.

Original articles, items of medical importance, correspondence upon topics of current interest are solicited.

Communications and subscriptions should be addressed:

Therapeutics of Dry Hot Air

By CLARENCE EDWARD SKINNER, M. D., LL. D.,

Professor of Thermotherapy in the New York School of Physical Therapeutics; Physician in charge of the Newhope Sanitarium, New Haven, Conn.; Member of the American Medical Association, American Electro-Therapeutic Association, American Roentgen Ray Society, Yale Medical Alumni Association, etc.

This book is the **first complete treatise** that has been published upon this subject, and the only one extant. Dr. Skinner has carried his investigations to a point which gives hot air a commanding position in the modern management of disease. A feature of particular value in connection with the work is that hot air is considered in relation with the other therapeutical agents as well as in its own individual capacity, whereby a broad view of its true value and position is presented, and the result is the production of a surprisingly practical book for the use of physicians.

Among the pathological conditions considered occur the following: Rheumatism, Sprains, Arthritis, Deformans, Nephritis, Local Septic Infection, General Systemic Toxæmia, Pneumonia, Peritonitis, Varicose Ulcers, Nervous Exhaustion, Neuritis, Synovitis, and Joint Tuberculosis. Altogether some forty-eight pathological states are mentioned as amenable to the action of hot air. The clinical results obtainable are clearly set forth, and the combination of electricity, drugs, etc., with hot air is noted in the section treating of each disease where experience has demonstrated its value. The text is well illustrated with full page half-tone plates.

200 pages substantially bound in cloth. Price, $2.00.

··THE··
DIETETIC AND HYGIENIC GAZETTE

Occupies a Unique Place in Medical Journalism.

The spirit of progressive medicine of to-day is summed up in one word—*Prophylaxis*, the prevention of disease.

The GAZETTE is pre-eminently a journal of Preventive Medicine, having for its object the dissemination of a better knowledge of Dietetics, Hygiene and Physical Education.

Health comes of knowledge and obedience to physiologic law. Disease is the penalty of ignorance, heredity or perverseness.

The physician of the future will be a conservator of health, better remunerated and of more service to the community. Medicines will be used more and more for prophylactic purposes.

Preventive Medicine is and always will be at the front.

The GAZETTE is a one hundred, octavo page, monthly magazine, and though essentially for physicians, by reason of the universal interest taken in the subjects discussed, it has rapidly found its way into a vast number of the best homes, libraries and institutions of learning throughout the English-speaking world.

The subscription price of the GAZETTE is one dollar per annum.

THE GAZETTE PUBLISHING CO.

503 FIFTH AVENUE, NEW YORK CITY.

Sanitary and Artistic methods of floor finishing should interest every physician. Free samples of finished woods and full particulars upon request.

H. C. ALLEN, M. D.,
EDITOR.

R. E. YOUNG,
PUBLISHER.

THE MEDICAL ADVANCE,

NO. 503 FIFTH AVENUE,

TWO DOLLARS A YEAR. NEW YORK, Jan'y 1, 1903.

Dr. Anybody,

Anytown, Anywhere.

Dear Doctor,

Just a line to call your attention to The Medical Advance as a Journal that you will enjoy reading and from which you are certain to derive a great deal of benefit.

Dr. Allen, who founded the magazine thirty years ago, is still in the editorial chair, and bestowing more attention upon his editorial work than ever before.

The business office has been moved to New York, Five Hundred and Three, Fifth Avenue, where you will find the latchstring on the outside should you ever visit New York.

If you will write at once to the NewYork office, you can learn of some very interesting premium offers of which you can take advantage this year.

Very sincerely yours,

R. E. YOUNG.

Dr. Octavia L. Krum, Physician in Charge, POTTSTOWN, PA. (See page 1609

The Most Independent and Comprehensive of Medical Journals.

SEVENTEENTH YEAR:

Advisers often have motives of their own. But **Advertisers,** who investigate for themselves, can ascertain positively that

"Modern Medical Science"

is a medium unsurpassed in the two grand factors of profitable advertising. What are they:

FIRST—Comprehensive Circulation. The Medical Circulation of "Modern Medical Science" is never less than **20,000** copies in any month—prove it any way you will—and penetrates every section of English-speaking America.

SECOND—Interesting and valuable to its class of readers. Intelligent comparison of any number of "Modern Medical Science" with any other medical journal whatever will find in it the freshest and fullest production of important Medical Intelligence anywhere to be found in periodical print, and the actual returns to its advertisers confirm the presumption that it must therefore be looked for and read with uncommon interest by physicians.

Established (as the SANITARY ERA) 1886.

ONE DOLLAR A YEAR.

A Monthly Journal of Scientific Advance in Medicine, Surgery, Hygiene and Sanitation, with Special Emphasis on Physiological Therapeutics,

including

Hæmatherapy, or Auxiliary Treatment with Supplied Bovine Blood.

MOTTO: "SANGUIS SANGUINE CURETUR."

CHOOSE A STAMMERING SCHOOL ADVISEDLY. Do not attend and do not recommend a school for the cure of stammering simply because it guarantees a cure. Stammering may be stopped by the substitution of something as bad or worse. The Reed School gives a steadily progressive and very effective course of instruction in NATURAL SPEECH. Booklet sent on application. (See other bottom lines.) **FRANK A. REED, 387 Hubbard Ave., Detroit, Mich.**

The Publishers of

The Carolina Medical Journal

of Charlotte, North Carolina,

believe the facts justify their claim that the Carolina Medical Journal has more bona fide paying subscribers in the two Carolinas, than any other two journals.

The field of the Carolina Medical is the whole South, but the two Carolinas are covered closely. The Carolina Medical stands for the betterment of everything pertaining to the Practice of Medicine and Surgery.

Advertisers are requested to investigate its merits as a medium for reaching directly the users of their products. The size of the magazine is doubled for 1904.

Very respectfully,

W. H. WAKEFIELD, M. D.,

MANAGING EDITOR,

CHARLOTTE, NORTH CAROLINA.

POMEROY COMPANY,
17 UNION SQUARE, NEW YORK CITY.
THE "MASTER" Surgical Elastic Stockings.
(See adv in classified Supporting Belts.)

JOURNAL OF THE

Association of Military Surgeons of the United States.

The Only Journal devoted to the Military Aspects of Medicine, Surgery and Hygiene in America.

THE LEADING MILITARY MEDICAL JOURNAL IN THE WORLD.

Original Articles.

The Journal will, in each number, continue the publication of original papers of the high order which has hitherto characterized the work of the Association. Arrangements have been made for important memoirs relative to the medico-military conduct of campaigns in all lands and by all nations.

Reprints and Translations.

The medico-military literature of other countries is freely laid under contribution, and all important articles in contemporary literature will be drawn upon.

Medico-Military Index.

A complete medico-military bibliography—prepared by the Librarian of the United States Army Medical Library—comprising the entire medico-military literature of the world, is regularly published.

Editorial Department.

An accomplished corps of collaborators will co-operate with the editor in presenting timely discussions, reviews, comments, and general information relative to current events of medico-military interest.

Circulation.

The Journal has a larger aggregate circulation than any other military magazine published n America, and is the only periodical comprising in its clientele at the same time, officers of the three public services and the militia of the United States and many officers also of the services of other countries.

Advertisements.

Recognizing the benefit to the service of announcements of therapeutic advances and developments, and other facilities offered to its clientele, the Journal admits to its pages a number of advertisements, which, by their careful selection, are by no means the least useful of the facilities afforded by it.

Typography and Illustration.

The Journal will continue to be printed in the best style upon heavy super-calendered paper and fine illustrations will continue to be freely employed whenever possible to elucidate the text by their use.

SUBSCRIPTION, THREE DOLLARS A YEAR, IN ADVANCE.

Free to Members of the Association of Military Surgeons of the United States.

THE OFFICIAL ORGAN

OF THE

Association of Medical Officers of the Army and Navy of the Confederate States.

THE SOUTHERN PRACTITIONER,

An Independent Monthly Journal

Devoted to Medicine and Surgery,

NASHVILLE, TENN.

ESTABLISHED 1879.

The Best Medical Advertising Medium South of the Ohio River.

EDITOR AND PROPRIETOR: **Deering J. Roberts, M. D.** LATE PROFESSOR OF THE THEORY AND PRACTICE OF MEDICINE IN THE MEDICAL DEPARTMENT OF THE UNIVERSITY OF TENNESSEE.

Lowest Rates of Any Medical Periodical Containing as Much Good and Reliable Reading Matter Published in America.

CIRCULATION LARGER THAN ANY MONTHLY MEDICAL AND SURGICAL JOURNAL IN THE SOUTH AND WEST.

Contains Sixty Pages of Reading Matter Each Month.

SUBSCRIPTION PRICE IS ONLY

ONE DOLLAR PER YEAR IN ADVANCE.

Original Essays, Original Communicatians, Clinical Reports of Interesting Cases, Reprints of Interesting Articles, Results of Experiments with Old and New Remedies, Proceedings of Medical Societies, Extracts from Medical Journals, Bibliographical Notices and Reviews, Medical Items, and Editorial Comments, will constitute the subject matter of each monthly issue. Its pages will at all times be open to anything that pertains to progress in medicine and Surgery.

To hard-worked medical men, with a limited time for reading, and few opportunities for professional conversation, such a journal as this, bringing every month the latest ideas in medical practice and the latest records of important cases, ought to be invaluable. As a medical periodical that is within the reach of every professional reader, we respectfully submit it to your consideration. Subscriptions—**Only One Dollar per Year, Postage included** — are respectfully solicited. All communications must be addressed to

DEERING J. ROBERTS, M. D., Editor and Proprietor,
